From Me to We Jason Griffith, 2016-08-19. With this practical book, you'll learn effective ways to engage students in reading and writing by teaching them narrative nonfiction. By engaging adolescents in narrative literary or creative nonfiction, they can cultivate a greater understanding of themselves, the world around them, and what it means to feel empathy for others. This book will guide you to first structure a reading unit around a narrative nonfiction text and then develop lessons and activities for students to craft their own personal essays. Topics include: Engaging your students in the reading of a nonfiction narrative with collaborative chapter notes, empathy check-ins, and a mini research paper to deepen students' understanding. Helping your students identify meaningful life events, recount their experiences creatively, and construct effective opening and closing lines for their personal essays. Encouraging your students to use dialogue outside research and a clear plot structure to make their narrative nonfiction more compelling and polished. The strategies in this book are supplemented by examples of student work and snapshots from the author's own classroom. The book also includes interviews with narrative nonfiction writers MK Asante and Johanna Bear. The appendices offer additional tips for using narrative nonfiction in English class, text, and online resources for teaching narrative nonfiction, and a correlation chart between the activities in this book and the Common Core Standards.

Lawrence,2015-09-04 How does an introverted student with a visual or auditory learning preference find success in a classroom built for extroverted kinesthetic learners While student discussion in the classroom is invaluable it also presents an issue for many students not only in how they feel in the class setting but in how they ultimately learn Given the emerging understanding of differing personality types and learning preference it is questionable whether all students are served by socially active methods that mandate students to speak Learning and Personality documents how introverted and intrapersonal students are being subjected to uncomfortable situations in schools today This book focuses on the classroom experience of students who have been identified as learning best through reflection and observation The author uses an American college writing class as the setting to explore the in depth experience of common first year students The results of this primary qualitative study reveal a glaring conflict within mainstream educational theory With more than five years of research and over one hundred references cited from sources that span two centuries this book calls attention to a mass misunderstanding of introversion as well as the effects of instructional methods that appeal to only one type of personality **Saving Civility** Sara Hacula,2011 Presents fifty two suggestions to bring civility back to everyday interaction **Living Legacies** Laura Dubek,2018-04-17 In this timely and dynamic collection of essays Laura Dubek brings together a diverse group of scholars to explore the literary response to the most significant social movement of the twentieth century Covering a wide range of genres and offering provocative readings of both familiar and lesser known texts Living Legacies demonstrates how literature can be used not only to challenge the master narrative of the civil rights movement but also to inform and inspire the next generation of freedom fighters *Memory, Invention, and Delivery* Richard Dagger,Christopher Metress,J. Play the Game. Change the Game. Leave the Game. Robert Livingston, 2025-09-09 Instead of waiting for White people to change Black people must prioritize their own prosperity power and self determination by navigating challenging and exiting racist systems a radical argument from a Harvard behavioral scientist It s time to face an inconvenient truth our current approach to fighting racism is just not working For a brief moment following the murder of George Floyd it seemed as though the country had finally acknowledged the destructive legacy of slavery and White supremacy and had committed to putting things right Now a horde of prominent voices many of whom professed to be antiracist allies are pulling back cutting support and defunding programs that sought to level the playing field Harvard psychologist Robert Livingston contends that racism operates like an addiction for so many White people hard to admit and even harder to quit Given their unwillingness to kick the habit where does this leave Black people In this provocative book Livingston has flipped the script asking How can Black people attain prosperity and peace of mind despite the enduring presence of racism Livingston reveals three paths Play the game or find ways to work within mainstream predominantly White systems without sacrificing your identity or dignity Think of Kenneth Chenault a tempered radical who rose through the ranks to become the first Black CEO of American Express Change the game or challenge the status quo in an effort to upend White supremacy like Colin Kaepernick whose idealism cost him his football career but made him an icon Leave the game or turn away from White environments to carve out spaces where Black people can flourish from HBCUs to entrepreneurship to the creation of ethnic enclaves like the all Black middle class neighborhood where Livingston himself grew up Drawing on social science his own experiences and interviews with trailblazing Black leaders and luminaries Livingston reveals the contours of these oft overlapping paths for effectively navigating mitigating and circumventing White supremacy Play the Game Change the Game Leave the Game is a bold groundbreaking proposition that empowers readers to make the leap from being played to creating their own game plan
