Segal,2004-07-08 This book is not about myths but about approaches to myth from all of the major disciplines including science religion philosophy literature and psychology The fate of the preternaturally beautiful Adonis is one of the main fables upon which Segal focuses in an attempt to analyse the various different theories of myth Where the theory does not work he substitutes another myth showing that for all their claims to all inclusiveness certain theories in fact only apply to specific kinds of myths A uniform set of questions is provided to elucidate both the strengths and the weaknesses of the conjectures A survey of the past 300 years of theorizing on myth this book takes into account the work of such prominent thinkers as Albert Camus Claude L vi Strauss Roland Barthes C G Jung and Sigmund Freud Finally Segal considers the future study of myth and the possible function of myth in the world as the adult equivalent of play ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make

interesting and challenging topics highly readable     Subject catalog Cleveland Public Library. John G. White Department,1964     Migration and Language Education in Southern Europe Eleni Griva,Maria Mourtzi,Marina Mattheoudakis,2021-10-04 The entry of migrant populations to Europe and especially to countries of Southern Europe is expected to drastically change the make up of state school classes as learners of various ages ethnic backgrounds and mother tongues are going to co exist within the same educational setting In Greece in particular the landscape of education has already started changing as a significant number of immigrant students have joined mainstream classrooms This volume maps this new educational reality and its challenges as Greek teachers are required with very limited training and resources to address those students educational and socio emotional needs All chapters are authored by Greek researchers who are actively involved in the study of refugees and immigrants education their needs and their educational linguistic and political rights Despite the fact that education for immigrants and refugees has become the focus of much research on a global level the ongoing rapid rise of immigrant populations in Southern Europe has not been adequately researched This book consequently meets the need for further research and empirical studies in this field     Summary of Investigations

Critical Political Economy Christian Arnsperger,2007-12-11 This bold and ambitious book attempts to diagnose and remedy what is wrong with economics so that it can become an emancipatory form of knowledge It will be of interest to serious economists and philosophers of social science everywhere     World of the Gift Jacques T. Godbout,Alain C. Caillé,1998-10-21 The anthropologist Marcel Mauss in his famous exploration of the gift in primitive and archaic societies showed that the essential aspect of the exchange of presents involved the establishment of a social tie that bound the parties together above and beyond any material value of the objects exchanged He argued that these intangible mutual debts constituted the social fabric Godbout and Caillé show that contrary to the modern assumption that societies function on the basis of market exchange and the pursuit of self interest the gift still constitutes the foundation of our social fabric The authors describe the gift not as an object but as a social connection perhaps the most important social connection because it creates a sense of obligation to respond in kind They examine the gift in a broad range of cases such as blood and organ donation volunteer work the bonds between friends couples and family Santa Claus the interaction between performers and their audience and the relation of the artist to society Written in an engaging manner The World of the Gift will appeal to anyone who is interested in how the world really operates     *History of Seitan (1962-2022)* William Shurtleff; Akiko Aoyagi,2022-02-02 The world's most comprehensive well documented and well illustrated book on this subject With extensive subject and geographic index 73 photographs and illustrations mostly color Free of charge in digital PDF format
