Tucker, 2012-10-09 This user friendly encyclopedia comprises a wide array of accessible yet detailed entries that address the military social political cultural and economic aspects of the Mexican American War *The Encyclopedia of the Mexican American War A Political Social and Military History* provides an in depth examination of not only the military conflict itself but also the impact of the war on both nations and how this conflict was the first waged by Americans on foreign soil and served to establish critical U

Sound, Image, and National Imaginary in the Construction of Latin/o American Identities Héctor Fernández L'Hoeste, Pablo Vila, 2017-12-26 *Sound Image and National Imaginary in the Construction of Latin o American Identities* addresses a gap in the many narratives discussing the cultural histories of Latin American nations particularly in terms of the birth configuration and perpetuation of national identities It argues that these processes were not as gradual or constrained as traditionally conceived The actual circumstances dictating the adoption of particular technologies for the representation of national ideas shifted and varied according to many factors including local circumstances political singularities economic disparities and highly individualized cultural transitions This book proposes a model of chronology that is valid not only for nations that underwent strong

processes of nationalism during the early or mid twentieth century but also for those that experienced highly idiosyncratic cultural economic and political development into the early twenty first century The Oxford Handbook of the Sociology of Latin America Xóchitl Bada, Liliana Rivera Sánchez, 2021 The essays included in this volume provide both an assessment of key areas and current trends in sociology specifically with regard to contemporary sociology in Latin America as well as a collection of innovative empirical studies The volume serves as an effective bridge of communication allowing sociological academics to mobilize and disseminate research dynamics from Latin America to the rest of the world **Photo-Era Magazine, the American Journal of Photography** ,1905 *Performances of Suffering in Latin American Migration* Ana Elena Puga, Víctor Espinosa, 2020-04-09 This book questions the reliance on melodrama and spectacle in social performances and cultural productions by and about migrants from Mexico and Central America to the United States Focusing on archetypal characters with nineteenth century roots that recur in the twentieth and twenty first centuries heroic saviors saintly mothers and struggling fathers martyred children and rebellious youth it shows how theater practitioners filmmakers visual artists advocates activists journalists and others who want to help migrants often create migrant melodramas performances that depict their heroes as virtuous victims at the mercy of evil villains In order to gain respect for the human rights that are supposedly already theirs on paper and participate in a global market that trades in performances of suffering migrants themselves sometimes accept the roles into which they are cast or even cast themselves Some express their suffering publicly often on demand Others find ways to twist parody resist or reject migrant melodrama Timely beautifully written and deeply researched Puga's and Espinosa's study captures the complex nuances of how performance scholars and ethnographers grapple with telling stories of and bearing witness to trauma They invite scholars to re imagine the narrative genres into which histories of migration are often coerced They question how familiar forms such as melodrama can empower or dis empower individuals struggling to share their stories and change their circumstances Their thoughtful work offers a compassionate and erudite model for performance ethnographers Heather S Nathans Alice and Nathan Gantcher Professor in Judaic Studies Tufts University In their penetrating analysis Puga and Espinosa show how militarized borders neoliberal economics exclusionary immigration policies and rising nativism have combined to create an ongoing melodrama in which migrants journalists and rescuers perform scripted roles as martyrs saints and heroes in an effort to sway a global audience of onlookers Although the protagonists in this melodrama seek to relieve the suffering of migrants by valorizing their pain and using it as a currency in a political economy of suffering the authors sympathetic but critical analysis reveals both the promise and perils of this emotive strategy Their analysis is essential to understanding how immigration is portrayed and perceived in the world today Douglas S Massey Henry G Bryant Professor of Sociology and Public Affairs Princeton University Ana Elena Puga and Víctor M Espinosa's *Performances of Suffering* is well researched and compellingly theorized collaboration which reveals the affective labor performed by with and for migrants in the United States and Mexico

In these perilous times the lessons that this book teaches us about the performance of melodrama as a key aspect of obtaining justice and care for migrants throughout the hemisphere are crucial to understanding representations of migrant crises in our contemporary social media performance and advocacy movements Patricia Ybarra Professor of Theatre Arts and Performance Studies Brown University In this fascinating book Puga and Espinosa illuminate the political economy of suffering among Latin American migrants This is a timely and important work to understand how migrants the state humanitarian workers and the media all perform the melodrama of the suffering migrant An impressive and provocative book Carolyn Chen Associate Professor of Ethnic Studies University of California at Berkeley **Image, Myth and Beyond** Betty E. M. Ch'maj, Betty E. Chmaj, Joseph W. Baunoch, 1972 VIII Latin American Conference on Biomedical Engineering and XLII National Conference on Biomedical Engineering César A. border into the United States yet until now few scholars have sought migrants own accounts of their experiences Painting Texas History to 1900 Sam DeShong Ratcliffe, 2014-11-06 Certificate of Commendation American Association for State and Local History 1994 T R Fehrenbach Book Award Texas Historical Commission 1992 San Antonio Conservation Society Citation 1993 Dramatic historical events have frequently provided subject matter for artists particularly in pre twentieth century Texas where works portraying historical often legendary events and individuals predominated Until now however these paintings of Texas history have never received the kind of study given to historical fictional and film versions of the same events Painting Texas History to 1900 fills this gap with an interdisciplinary approach that explores these paintings both as works of art and as historical documents The author examines the works of more than forty artists including Henry McArdle Theodore Gentilz Robert Onderdonk William Huddle Frederic Remington Friedrich Richard Petri Arthur T Lee Seth Eastman Sarah Hardinge Frank Reaugh W G M Samuel Carl G von Iwonski and Julius Stockfleth He places each work within its historical and cultural context to show why such subject matter was chosen why it was depicted in a particular way and why such a depiction gained popular acceptance For example paintings of heroic events of the Texas Revolution were especially popular in the years following the Civil War when in Ratcliffe s view Texans needed such images to assuage the loss of the war and the humiliation of Reconstruction Though the paintings cut across traditional art history categories from the pictographs of early historic Indians to European inspired oil paintings they are bound together by their artists intent for them to function as historically evocative documents With their visual narratives of events that characterized all of America s westward expansion Indian encounters military battles farming ranching surveying and the closing of the frontier these works add an important chapter to the story of the American West **Postcards from the Sonora Border** Daniel D. Arreola, 2017-02-21 Young men ride horses on a dusty main road through town Cars and gas stations gradually intrude on the land and years later curiosity shops and cantinas change the face of Mexican border towns south of Arizona Between 1900 and the late 1950s Mexican border towns came of age both as centers of commerce and as tourist destinations Postcards from the Sonora Border reveals how images in this case the iconic postcard shape the way we experience and think about place Making use of his personal collection of historic images Daniel D Arreola captures the evolution of Sonoran border towns creating a sense of visual time travel for the reader Supported by maps and visual imagery the author shares the geographical and historical story of five unique border towns Agua Prieta Naco Nogales Sonoyta and San Luis R o Colorado Postcards from the Sonora Border introduces us to these important towns and provides individual stories about each using the postcards as markers No one postcard view tells the complete story rather the sense of place emerges image by image as the author pulls readers through the collection as an assembled view Arreola reveals how often the same locations and landmarks of a town were photographed as postcard images generation after generation giving a long and dynamic view of the inhabitants through time Arranged chronologically Arreola s postcards allow us to discover the changing perceptions of
