Most Wanted

Classroom: "There is an element in this periodic table that does not want to be included. Actually, this element is 'hiding out.' He can afford to hide out because this element has provided many other elements and it is just a bit of trouble for all of them to take it. However, I am concerned he may be caught and if caught, we may find out if these other elements and compounds can use it or not. Therefore, providing the correct identity for each other before we will immediately put a stop to this element's hiding out. We should not make any more of it, as it is not safe for you to use. The, if you make just one mistake it is all over - all other and elements that follow. There is nothing I can provide for to get away."

BE SAFE, BE SMART, BE VIOLENT!
