Alison Plus,2015-07-07 Just tell a story the teacher said It will be fun Yet the student stares at a blank screen uncertain what

to write and it's far from a fun experience. The narrative essay, a personal form of storytelling about true experiences, requires the writer to abandon familiar tools such as topic sentences, thesis statements, and supporting authority. But this doesn't mean the writer should just type words until the pages are filled. Rambling, freeform narratives are not what most writing instructors hope to see. There is a better method, and it can be found in this short booklet. This booklet explains everything the writer needs to generate a successful narrative essay in step-by-step fashion. Starting with a story goal, proceeding through a timeline, and finishing with two targeted paragraphs, this booklet will turn a blank screen into a finished paper.

The Columbia Guide to Social Work Writing
Warren J. Green, Barbara Levy Simon, 2012
Social work practitioners write for a variety of publications and they are expected to show fluency in a number of related fields. Whether the target is a course, instructor, scholarly journal, fellowship, organization, or general news outlet, social workers must be clear, persuasive, and comprehensive in their writing, especially on provocative subjects. This first of its kind guide features top scholars and educators providing a much needed introduction to social work writing and scholarship. Foregrounding the process of social work writing, the coeditors particularly emphasize how to think about and approach one's subject in a productive manner. The guide begins with an overview of social work writing from the 1880s to the present and then follows with ideal strategies for academic paper writing, social work journal writing, and social work research writing. A section on applied professional writing addresses student composition in field education, writing for and about clinical practice, the effective communication of policy information to diverse audiences, program and proposal development, advocacy, and administrative writing. The concluding section focuses on specific fields of practice, including writing on child and family welfare, contemporary social issues, aging, and intervention in global contexts. Grounding their essays in systematic observations, induction, and deduction, and a wealth of real-world examples, the contributors describe the conceptualization, development, and presentation of social work writing in ways that better secure its power and relevance.

Liminal Traces Devika Chawla, Amardo Rodriguez, 2012-01-01 Home and exile have become key discussions in discourses of globalization cosmopolitanism postcolonialism transnationalism identity and multiculturalism These discourses can be expected to flourish in the future as an increasing number of multicultural scholars struggle with various kinds of displacements and the meaning of home that is thereby instantiated anew as we experience living in between cultures This book sits in the intersection between cultural studies and performance studies It seeks to break theoretical and empirical ground by reframing understandings of home and exile Popular notions of exile forwarded by transnational and postcolonial scholars position home as a place of return and longing While we believe that there are many truths in this position we performatively seek emergent forms of displacement that are demanding new frameworks with which to enact meanings of home and exile As Third World immigrant scholars in Western academe we believe our move is vital in order to explore the experiences of persons such as ourselves who fall outside the models of displacement that have long constituted migr writings We define this move as a performative one because we experiment with different genres and voices to question and reproblematicize existing understandings of knowledge frames The genres we embody include performative writing dialogue autoethnography essay form personal narrative and so on Our goal is to address theories stories and pedagogies that speak to our tribulations in negotiating such intellectual displacements This book can be an ideal supplementary text for courses in cultural studies as every chapter speaks in performative reflexive and storied ways to our own struggles to find real and theoretical homes It will therefore have relevance to many departments in the humanities including Communication Studies English Cultural Studies Education Anthropology Sociology and Women s Studies Infact this book serves the heuristic function of inspiring new research questions and demonstrating how a wide range of theories and research methods can be employed to enact discourses of home and exile

Academic Assessment and Intervention Steven Little, Angeleque Akin-Little, 2014-01-21 Serving students with academic deficiencies necessitates communication and collaboration among professionals from several disciplines Academic Assessment and Intervention brings

together divergent approaches in order to demonstrate that scientific evidence rather than biases or previous practice must determine assessment practices that are selected and used for particular purposes. Similar to a handbook in its comprehensive topical coverage, this edited collection provides a contextual foundation for academic assessment and intervention, describes both norm-referenced and curriculum-based assessment measurement in detail, considers the implications of both of these assessments on ethnically diverse populations, provides a clear link between assessment evidence-based interventions and the RTI model, and considers other important topics related to this area such as teacher behavior. Intended primarily for graduate-level courses in education, school psychology, or child clinical psychology, it will also be of interest to practicing professionals in these fields.

[Pathways Through Writing Blocks in the Academic Environment](#)
Kate Evans, 2013-04-19
Writing blocks are likely to strike any writer, even experienced ones, at sometime or another. Academia has its own challenges which can provoke blocks particular to that environment. Drawing on her knowledge as writer, psychotherapeutic counsellor, and university tutor, Kate Evans has put together a book which addresses many of the differing aspects of writing blocks, including looking at their emotional and psychological foundations. With discussion and practical exercises, this volume suggests that an infusion of creative techniques can offer pathways through writing blocks in the academic environment. The case studies provide an in-depth consideration of varying experiences of writing blocks. The book is aimed at students with essays, projects, or reports to write or theses to tackle, as well as academics who are working on articles and books. It will also offer insights for supervisors who wish to support those who are writing and guidance for people running writing groups within academia. Overall, the book encourages a creative, collaborative approach which aims to equip academics for writing within the context of the twenty-first century. This book offers something for every academic writer, whether budding or experienced. Students struggling with essays and dissertations will find many practical exercises along with invaluable advice. More practised writers will encounter fresh insights. I am confident that you, the reader, will enjoy this book, which is itself a model of good writing. Dr Linda Finlay, the Open University, UK.
