

Individual Programmatic Assessment: Personality Development Paper

Write a 1,050- to 1,400-word paper that examines the influences of traits—such as trait theory—and biology—such as temperament—on personality development. Answer the following questions in your paper:

How does the gene-environment interaction influence personality?

Is culture a factor in personality expression?

What do twin studies show us about the inheritability of personality?

What characteristics of temperament are stable over time and contribute to our adult personality?

Are specific characteristics consistent over situation and over time?

Include an explanation of how the following personality models may be adapted to account for variation in the personal, societal, and cultural factors discussed in your paper:

Biological model

Five-factor trait theory

Temperament model of personality

Theoretical Frameworks for Personal Relationships Ralph Erber,Robin Gilmour,2013-06-17 The past two decades have seen a tremendous increase in research and scholarship devoted to personal relationships From rather scattered beginnings a recognizable and recognized field has emerged whose strength and health is reflected in a wide array of indicators The editors contend that while the vigor of the field is often shown in the diversity and innovation of its research it is in the theoretical domain that they find evidence of a real coming of age This volume provides grounds for arguing that the diversity of theorizing is particularly healthy at this point The reader will notice that there is some diversity in terms of how much theory and research is contained in each chapter some are purely theoretical others are complemented by original pieces of empirical research The editors and contributors are from different countries another way in which the diversity of this book manifests itself The variety of the frameworks presented are seen as a strength as building on established strengths elsewhere to feed into relationship research and enhance its vitality Each chapter makes its own contribution to thinking and research about personal relationships As a group they add to an exciting collection that not only reflects a richness of conceptual backing but also a wide range of usable theoretical structures
