Modern globalized world demands to keep the track of events, to have a keen sense of the pulse of the situation in global issues and flashpoints. To be on good terms with information and in order not to fall behind its vicious circle one should possess the skills of communication, being socio-active and re-act rapidly under the certain sudden circumstances. A noble wish to make the live easier has led to the fact that people lack time for creation and even for themselves. Nevertheless, this is just the broad sense. Every single invention is a tool to serve people. Progress as the headway of mankind does not suggest and does not explain people's degradation. Each single invention is the pure form of expression to the so-called ratio of a human being. So was the invention of photography.

What are the accomplishments and perspectives of the art of photography? What are the modern trends in photography? Is it connected to life as any other art-form? These are the objectives to be discussed further.

CRITICAL ART ESSAY

"The camera should be used for a recording of life, for rendering the very substance and quintessence of the thing itself, whether it be polished steel or palpitating flesh." (Weston)

The history of the photograph started in 1827. Since that time it has given "a new perspective on life and art". The style of photography varies since the "number of photographers is increasing" Almost two centuries have passed

Writing for Health Professionals Philip Burnard, 2013-12-20 I try to leave out the parts that people skip Elmore Leonard This book is all about writing it is both a practical and a personal account When you write a book like this you put yourself on the line you run the risk of people reading what you have written and saying he's saying one thing and doing another You stand to break the rules that you set up quite badly That is probably not such a terrible thing besides that should be part of the process of using this book As you read it notice when rules are broken Check the phrasing the sentence and paragraph construction and see whether or not I have stuck to the rules Then see whether or not the rules would have improved the passage in question Begin to read books as much for their style layout and general format as for their content If you are going to write you need to see plenty of examples of all of these things good bad and indifferent to write for some time but was always This is a book I have wanted nervous of writing so here it is an introduction to some of the ways and means of writing It is as I say personal I hope it will be useful A word about sexism and the writing process I find the use of his or her and its variants clumsy
