People and Plants in Ancient Eastern North America Paul E. Minnis, 2010-01-15 The environmental diversity of North America is astounding from the circumpolar tundra with few plants more than a few centimeters tall to the lush semitropical forests of the southeastern United States and Caribbean Basin No less remarkable is the record of plants usage by the various indigenous people who have been living there for more than twelve millennia For the vast majority of this time their livelihood food shelter fuel and medicine depended on their knowledge and use of the environment The most comprehensive overview in more than half a century about the interconnectedness of prehistoric Native Americans and their botanical world this book and its forthcoming companion volume *People and Plants in Ancient Western North America* present the latest information on three major topics the use of native plants the history of crops and their uses and how humans affected their environment In this volume expert scholars summarize the prehistoric ethnobotany of four regions the Eastern Woodlands W Cowan K Gremillion M Scarry B Smith and G Wagner Northeast G Crawford and D Smith Plains M Adair and Caribbean L Newsom and D Pearsall This volume contributes significantly to our understanding of

the lives of prehistoric people as well as the forces that influenced their communities their ingenuity and their ecological impact It also serves as a guide for designing environmentally sustainable lives today **The Oxford Handbook of North American Archaeology** Timothy R. Pauketat, 2012 The Oxford Handbook of North American Archaeology reviews the continent's first and last foragers farmers and great pre-Columbian civic and ceremonial centers from Chaco Canyon to Moundville and beyond Case Studies in Environmental Archaeology Elizabeth Reitz, C. Margaret Scarry, Sylvia J. Scudder, 2008 This book highlights studies addressing significant anthropological issues in the Americas from the perspective of environmental archaeology The book uses case studies to resolve questions related to human behavior in the past rather than to demonstrate the application of methods Each chapter is an original or revised work by an internationally recognized scientist This second edition is based on the 1996 book of the same title The editors have invited back a number of contributors from the first edition to revise and update their chapter New studies are included in order to cover recent developments in the field or additional pertinent topics *PEOPLE & PLANTS ANC W NA PB* MINNIS P, 2004-09-17 The environmental diversity of western North America is astounding from the wind-scoured tundra of the high mountains to the seemingly desolate lowland deserts No less remarkable is the record of plant usage by the various indigenous peoples who have been living there for more than twelve millennia For the vast majority of this time their livelihood food shelter fuel and medicine depended on their knowledge and use of the plants that surrounded them The most comprehensive overview in more than half a century on the interconnectedness of people and plants this book and its companion volume *People and Plants in Ancient Eastern North America* present the latest information on three major topics the uses of native plants the history of crops and their uses and the impact of humans on their environment They not only contribute to our understanding of the lives of prehistoric people but also serve as guides for designing sustainable living today NHBS Environment Bookstore

The Oxford Handbook of Historical Ecology and Applied Archaeology Christian Isendahl, Daryl Stump, 2019-01-10 The Oxford Handbook of Historical Ecology and Applied Archaeology presents theoretical discussions methodological outlines and case studies describing the field of overlap between historical ecology and the emerging sub-discipline of applied archaeology to highlight how modern environments and landscapes have been shaped by humans Historical ecology is based on the recognition that humans are not only capable of modifying their environments but that all environments on earth have already been directly or indirectly modified This includes anthropogenic climate change widespread deforestations and species extinctions but also very local alterations the effects of which may last a few years or may have legacies lasting centuries or more With contributions from anthropologists archaeologists human geographers and historians this volume focuses not just on defining human impacts in the past but on the ways that understanding these changes can help inform contemporary practices and development policies Some chapters present examples of how ancient or current societies have modified their environments in sustainable ways while others highlight practices that had unintended long

term consequences The possibilities of learning from these practices are discussed as is the potential of using the long history of human resource exploitation as a method for building or testing models of future change The volume offers overviews for students researchers and professionals with an interest in conservation or development projects who want to understand what practical insights can be drawn from history and who seek to apply their work to contemporary issues

Plants, People, and Places Nancy J. Turner, 2020-08-20 For millennia plants and their habitats have been fundamental to the lives of Indigenous Peoples as sources of food and nutrition medicines and technological materials and central to ceremonial traditions spiritual beliefs narratives and language While the First Peoples of Canada and other parts of the world have developed deep cultural understandings of plants and their environments this knowledge is often underrecognized in debates about land rights and title reconciliation treaty negotiations and traditional territories *Plants People and Places* argues that the time is long past due to recognize and accommodate Indigenous Peoples relationships with plants and their ecosystems Essays in this volume by leading voices in philosophy Indigenous law and environmental sustainability consider the critical importance of botanical and ecological knowledge to land rights and related legal and government policy planning and decision making in Canada the United States Sweden and New Zealand Analyzing specific cases in which Indigenous Peoples inherent rights to the environment have been denied or restricted this collection promotes future prosperity through more effective and just recognition of the historical use of and care for plants in Indigenous cultures A timely book featuring Indigenous perspectives on reconciliation environmental sustainability and pathways toward ethnoecological restoration *Plants People and Places* reveals how much there is to learn from the history of human relationships with nature

Crucible of Pueblos James R. Allison, Gregson Schachner, Richard H. Wilshusen, 2012-12-31 Archaeologists are increasingly recognizing the early Pueblo period as a major social and demographic transition in Southwest history In *Crucible of Pueblos* The Early Pueblo Period in the Northern Southwest Richard Wilshusen Gregson Schachner and James Allison present the first comprehensive summary of population growth and migration the materialization of early villages cultural diversity relations of social power and the emergence of early great houses during the early Pueblo period Six chapters address these developments in the major regions of the northern Southwest and four synthetic chapters then examine early Pueblo material culture to explore social identity power and gender from a variety of perspectives Taken as a whole this thoughtfully edited volume compares the rise of villages during the early Pueblo period to similar processes in other parts of the Southwest and examines how the study of the early Pueblo period contributes to an anthropological understanding of Southwest history and early farming societies throughout the world

Contemporary Issues in California Archaeology Terry L. Jones, Jennifer E. Perry, 2016-06-16 Recent archaeological research on California includes a greater diversity of models and approaches to the region's past as older literature on the subject struggles to stay relevant This comprehensive volume offers an in depth look at the most recent theoretical and empirical developments in the field

including key controversies relevant to the Golden State coastal colonization impacts of comets and drought cycles systems of power Polynesian contacts and the role of indigenous peoples in the research process among others With a specific emphasis on those aspects of California s past that resonate with the state s modern cultural identity the editors and contributors all leading figures in California archaeology seek a new understanding of the myth and mystique of the Golden State

Matsuda,2023-01-05 Volume I of The Cambridge History of the Pacific Ocean provides a wide ranging survey of Pacific history to 1800 It focuses on varied concepts of the Pacific environment and its impact on human history as well as tracing the early exploration and colonization of the Pacific the evolution of Indigenous maritime cultures after colonization and the disruptive arrival of Europeans Bringing together a diversity of subjects and viewpoints this volume introduces a broad variety of topics engaging fully with emerging environmental and political conflicts over Pacific Ocean spaces These essays emphasize the impact of the deep history of interactions on and across the Pacific to the present day

The Prehispanic Ethnobotany of Paquimé and Its Neighbors Paul E. Minnis,Michael E. Whalen,2020-11-17 Paquim also known as Casas Grandes and its antecedents are important and interesting parts of the prehispanic history in northwestern Mexico and the U S Southwest Not only is there a long history of human occupation but Paquim is one of the better examples of centralized influence Unfortunately it is also an understudied region compared to the U S Southwest and other places in Mesoamerica This volume is the first large scale investigation of the prehispanic ethnobotany of this important ancient site and its neighbors The authors examine ethnobotanical relationships during Medio Period AD 1200 1450 when Paquim was at its most influential Based on two decades of archaeological research this book examines uses of plants for food farming strategies wood use and anthropogenic ecology The authors show that the relationships between plants and people are complex interdependent and reciprocal This volume documents ethnobotanical relationships and shows their importance to the development of the Paquim polity How ancient farmers made a living in an arid to semi arid region and the effects their livelihood had on the local biota their relations with plants and their connection with other peoples is worthy of serious study The story of the Casas Grandes tradition holds valuable lessons for humanity

Reframing Paquimé Michael E.

Whalen,Paul E. Minnis,2025 Based on twenty five years of survey and excavation work in the Casas Grandes region this book presents an interpretation of Paquim that differs greatly from the traditional ideas that have dominated the literature for the last half century This massive reinterpretation of the inner workings of the Casas Grandes region tackles the essential question of how Paquim affected its near neighbors and also addresses the enigmatic end to the great city An essential archaeological text Reframing Paquim will generate debate for a generation of future scholars of Northwest Mexico and the adjacent U S Southwest

Textile Economies Walter E. Little,Patricia A. McAnany,2011-10-16 Textiles have been a highly valued and central part of the politics of human societies across culture divides and over millennia The economy of textiles

provides insight into the fabric of social relations local and global politics and diverse ideologies Textiles are a material element of society that fosters the study of continuities and disjunctions in the economic and social realities of past and present societies From stick loom weaving to transnational factories the production of cloth and its transformation into clothing and other woven goods offers a way to study the linkages between economics and politics The volume is oriented around a number of themes textile production textiles as trade goods textiles as symbols textiles in tourism and textiles in the transnational processes Textile Economies appeals to a broad range of scholars interested in the intersection of material culture political economy and globalization such as archaeologists cultural anthropologists economists museum curators and historians

Where the Red-Winged Blackbirds Sing Jennifer Bess, 2021-04-01 Where the Red Winged Blackbirds Sing examines the ways in which the Akimel O odham River People and their ancestors the Huhugam adapted to economic political and environmental constraints imposed by federal Indian policy the Indian Bureau and an encroaching settler population in Arizona's Gila River Valley Fundamental to O odham resilience was their connection to their sense of peoplehood and their himdag lifeway which culminated in the restoration of their water rights and a revitalization of their Indigenous culture Author Jennifer Bess examines the Akimel O odham's worldview which links their origins with a responsibility to farm the Gila River Valley and to honor their history of adaptation and obligations as world builders co-creators of an evermore life sustaining environment and participants in flexible networks of economic exchange Bess considers this worldview in context of the Huhugam Akimel O odham agricultural economy over more than a thousand years Drawing directly on Akimel O odham traditional ecological knowledge innovations and interpretive strategies in archives and interviews Bess shows how the Akimel O odham engaged in agricultural economy for the sake of their lifeways collective identity enduring future and actualization of the values modeled in their sacred stories Where the Red Winged Blackbirds

Sing highlights the values of adaptation innovation and co creation fundamental to Akimel O odham lifeways and chronicles the contributions the Akimel O odham have made to American history and to the history of agriculture The book will be of interest to scholars of Indigenous American Southwestern and agricultural history *The Death of Prehistory* Peter R. Schmidt, Stephen A. Mrozowski, 2013-11 Since the eighteenth century the concept of prehistory was exported by colonialism to far parts of the globe and applied to populations lacking written records Prehistory in these settings came to represent primitive people still living in a state without civilization and its foremost index literacy Yet many societies outside the Western world had developed complex methods of history making and documentation including epic poetry and the use of physical and mental mnemonic devices Even so the deeply engrained concept of prehistory deeply entrenched in European minds up to the beginning of the twenty first century continues to deny history and historical identify to peoples throughout the world The fourteen essays by notable archaeologists of the Americas Africa Europe and Asia provide authoritative examples of how the concept of prehistory has diminished histories of other cultures outside the West and how archaeologists can reclaim more inclusive histories set within the idiom of deep histories accepting ancient pre literate histories as an integral part of the flow of human history *Pumpkin* Cindy Ott, 2012-12-01 Why do so many Americans drive for miles each autumn to buy a vegetable that they are unlikely to eat While most people around the world eat pumpkin throughout the year North Americans reserve it for holiday pies and other desserts that celebrate the harvest season and the rural past They decorate their houses with pumpkins every autumn and welcome Halloween trick or treaters with elaborately carved jack o lanterns Towns hold annual pumpkin festivals featuring giant pumpkins and carving contests even though few have any historic ties to the crop In this fascinating cultural and natural history Cindy Ott tells the story of the pumpkin Beginning with the myth of the first Thanksgiving she shows how Americans have used the pumpkin to fulfill their desire to maintain connections to nature and to the family farm of lore and ironically how small farms and rural communities have been revitalized in the process And while the pumpkin has inspired American myths and traditions the pumpkin itself has changed because of the ways people have perceived valued and used it Pumpkin is a smart and lively study of the deep meanings hidden in common things and their power to make profound changes in the world around us *Archaeology of Food: An Encyclopedia* Karen Bescherer Metheny, Mary C. Beaudry, 2015-08-07 What are the origins of agriculture In what ways have technological advances related to food affected human development How have food and foodways been used to create identity communicate meaning and organize society In this highly readable illustrated volume archaeologists and other scholars from across the globe explore these questions and more The Archaeology of Food offers more than 250 entries spanning geographic and temporal contexts and features recent discoveries alongside the results of decades of research The contributors provide overviews of current knowledge and theoretical perspectives raise key questions and delve into myriad scientific archaeological and material analyses to add depth to our understanding of food The encyclopedia serves as a

reference for scholars and students in archaeology food studies and related disciplines as well as fascinating reading for culinary historians food writers and food and archaeology enthusiasts *The Archaeology of Caribbean and Circum-Caribbean Farmers (6000 BC - AD 1500)* Basil Reid, 2018-05-16

Comprising 17 chapters and with a wide geographic reach stretching from the Florida Keys in the north to the Guianas in the south this volume places a well needed academic spotlight on what is generally considered an integral topic in Caribbean and circum Caribbean archaeology The book explores a variety of issues including the introduction and dispersal of early cultivars plant manipulation animal domestication dietary profiles and landscape modifications Tried and true and novel analytical techniques are used to tease out aspects of the Caribbean and circum Caribbean database that inform the complex and often subtle processes of domestication under varying socio environmental conditions Contributors discuss their findings within multiple constructs such as neolithisation social interaction trade mobility social complexity migration colonisation and historical ecology Multiple data sources are used which include but are not restricted to rock art cooking pits and pots stable isotopes dental calculus and pathologies starch grains and proxies for past environmental conditions Given its multi disciplinary approaches this volume should be of immense value to both researchers and students of Caribbean archaeology biogeography ethnobotany zooarchaeology historical ecology agriculture environmental studies history and other related fields
