professor of Hebrew Bible at Lund University has long been one of the best known and most admired voices in biblical studies His eight English language books and countless articles published in a career spanning over four decades have changed the field in many ways Mettinger is renowned not as an iconoclast but as one working within mainstream scholarship who is nevertheless willing to challenge cherished ideas and who takes nothing for granted For example in one of his earliest works *A Farewell to the Servant Songs* published in its entirety in this volume Mettinger with his trademark brevity and articulation drew attention to the shaky ground on which this consensus idea was built and called fellow scholars to reexamine this notion taken for granted by so many for so long For Mettinger the Bible is sacred literature but in biblical interpretation there are no sacred cows *Reports from a Scholar's Life: Select Papers on the Hebrew Bible* collects 16 studies one short monograph twelve articles and three reviews originally published between 1977 and 2008 into one volume along with a new reflective essay The papers included provide not only Mettinger's most groundbreaking publications but also glimpses into several of the areas of study that occupied the author Mettinger's work ranged far and wide in the Hebrew Bible and here one finds examples of his contributions to the study of among other things the notions of God the Gottesbild in ancient Israel the theology of YHWH Sabaoth in the monarchic period the development of the story of David in 1-2 Samuel aniconism in ancient Israel the motif of the dying and rising god in the ancient world narrative criticism of the book of Job the development and structure of Second Isaiah The entire volume is opened by the titular essay published for the first time here *Report from a Scholar's Life* This article was originally delivered as the farewell address upon his retirement from Lund University and it provides a retrospective on his entire life and career

Introduction to Information Security Timothy Shimeall, Jonathan Spring, 2013-11-12 Most introductory texts provide a technology based survey of methods and techniques that leaves the reader without a clear understanding of the interrelationships between methods and techniques By providing a strategy based introduction the reader is given a clear understanding of how to provide overlapping defenses for critical information This understanding provides a basis for engineering and risk management decisions in the defense of information Information security is a rapidly growing field with a projected need for thousands of professionals within the next decade in the government sector alone It is also a field that has changed in the last decade from a largely theory based discipline to an experience based discipline This shift in the field has left several of the classic texts with a strongly dated feel Provides a broad introduction to the methods and techniques in the field of information security Offers a strategy based view of these tools and techniques facilitating selection of overlapping methods for in depth defense of information Provides very current view of the emerging standards of practice in information security
