Accelerated Language Learning (ALL) with the Lit Six (grades 6-8) Nancy Akhavan, 2023-07-13 It's a new day. We've learned language acquisition in school isn't linear and rote but rather dynamic, meaningful, and collaborative. Multilingual learners thrive through the production of oral and written language. Dr. Nancy Akhavan: Are you ready to teach multilingual learners with instruction that reflects current English Language Development (ELD) standards? Language acquisition expert Dr. Nancy Akhavan provides a flexible resource that delivers what students need most: experiences that teach language skills through intellectually engaging texts, tasks, and lively communication with peers. This dynamic curriculum offers five units based on a writing performance task that aligns to commonly taught genres and key reading skills. The research-backed instructional framework maximizes students' participation through a series of listening, speaking, and writing activities. **Book Review 1** Nancy Akhavan has brought together a set of carefully designed lessons that address the specific language acquisition needs of English Language Learners. Each 30-minute lesson is designed to help multilingual learners acquire English through content which supports lesson planning and delivery. Dr. Akhavan's work ensures success by demystifying the process of teaching and learning. Cinnamon Scheufele, Executive Director, Curriculum and Instruction, Lindsay Unified School District, Lindsay, CA. **Book Review 2** As a teacher educator, this curriculum is exactly what I wished I had to give my early career teachers who needed structure, scaffolding, and support in fine-tuning their instruction. The unit design, with the foundations, pave the way, lead the way, and assess, serve as the foundation upon which each lesson rests. The lessons are laser-focused to standards and learning outcomes, and the assessment perfectly aligns. I enthusiastically support this curriculum, which has the potential to promote significant changes in the literacy trajectories for students and districts. Molly Ness, VP Academic Content Learning, Ally. **Striking a Balance** Nancy L. Cecil, Albert Lozano, Mae Chaplin, 2020-05-04 Now in its sixth edition, *Striking a Balance* clearly illustrates how to create a comprehensive early literacy program that places direct skills instruction within the context of rich and varied reading and writing experiences. Text discussions, dynamic activities, and valuable appendices provide a variety of effective instructional resources selected based on research and teacher testimonials. The sixth edition incorporates recent updates to national and state standards, as well as expanded sections on working with English language learners and students with special needs, while maintaining the book's essential features: classroom vignettes, discussion questions, field-based activities, a student website, and study guide. An essential resource for early literacy instructors, this textbook's practical approach fundamentally demonstrates how children develop authentic literacy skills through a combination of direct strategy instruction and motivating contexts. [Academic Language in Diverse Classrooms: Definitions and Contexts](#) Margo Gottlieb, Gisela Ernst-Slavitz, 2014-04-14 Ensure your school speaks the language of success. With the rigorous content of College and Career Readiness standards, academic language use has moved to the forefront of educational priorities. School leaders and teachers must ensure that academic language becomes the focus.

of new curricula instruction and assessment with special attention to linguistically and culturally diverse students The author's six book series on academic language is already the definitive resource on the topic This companion volume provides a concise thorough overview of the key research concepts and effective practices that underlie the series Including Definitions and examples of the dimensions of academic language A step by step template to incorporate academic language use into plans for student learning Graphic models that illustrate the construct of academic language and its classroom application Language is the most fundamental building block of education Be sure your school is as strong as it can be with this indispensable book This book brings language learning in the classroom alive Against a backdrop of new standards the authors skillfully take the reader through detailed vignettes of classroom practice that support students development of academic language while at the same time discussing why the practice is effective Margaret Heritage Assistant Director for Professional Development National Center for Research on Evaluation Standards and Student Testing CRESST at UCLA
