NOTE: The FICO® Score is a credit score, which is a numeric representation of an individual's creditworthiness, based on prevailing information available on the credit files at the time of scoring. The majority of credit grantors use some sort of credit scoring model to help predict what kind of credit risk you may be. Other factors, such as your salary and length of employment, may also be considered in the credit granting process you apply for a loan. As a credit grantor, model FICO® Score does not provide any conclusion, evaluation or credit decision for credit granting.
