Finally I will discuss the potential impact of my values and performance in the workplace. What are personal values? Included are many definitions out there that can define values and how they can relate to ones personal beliefs. My definition would be what I believe and what I am against. My personal value is that I believe that I should provide a quality of life suitable for my family.

Rules can also enhance the ethical development that can be learned.

My rules would include if the values help me improve personally and professionally, and stick with the values. If the behavior is something I am against then I must understand why I am against the behavior. I believe that rules are important and should be followed which can help better shape someone's values. Ethics is a much bigger then just values. Ethics is a system of all the values and principles. How can I develop ethics? This question is hard to find an answer to right now. My answer would be I believe I would interconnect all my values and rules that I know o develop the ethics that are who I am.

I believe my development of ethics has just started by understanding what ethics are and understanding what are my values. Let's return to the first part of this paper when I explained a few of my values. What are my values? My values are that family comes first, and provide a lifestyle suitable as explained earlier.
