**Exposed** David J. Daegling, 2004-10-22 The myth of Bigfoot has captured the popular imagination since the creature's first public debut in 1958 numerous citations of evidence newspaper articles books hysterical personal accounts and even Hollywood movies illustrate the American public's enduring romance with the Sasquatch The scientific community on the whole however has stubbornly refused to comment on what it views as a very tall tale though Bigfoot's existence continues to be hotly argued between proponents of the beast and its skeptics Now biological anthropologist and primate physiology specialist David J Daegling enters the fray to offer both sides of the dispute benefit of objective scientific study A well crafted read Bigfoot Exposed will prove to be as much a model of scientific method for anthropologists and researchers as it is an engaging and persuasive debunking of the myth of Bigfoot **About the Little People: Fairies, Elves, Dwarfs, and**

**Leprechauns** Martin K. Ettington, I've written a number of books about legendary beings such as Bigfoot Dragons Thunderbirds Sea Monsters Giants and more I also wrote a book titled The Mythical People of Ireland which covered the Tuatha Da Danann Druids and Leprechaun elves The information I found for that book caused me to become more curious about the little people generally There are legends of the Little People all over the world Even more interesting is that a race of very small people who were close to three feet tall were uncovered recently in Indonesia This race is called the Flores Man and was of a similar size to the beings in many of the legends of the little people This find is amazing because none of the other legendary beings have confirmed evidence of those little people in archeological sites These findings add a lot of credibility to those old legends In this book we cover these little beings from different areas of the world This includes where they came from stories about them possibly coming from different dimensions and stories about sightings of them Hope you enjoy this adventure into what seems like it might be a real race of intelligent legends **Petting Farm Fun, Translated**

Ettington, The thesis of this book is that there was a civilization of intelligent beings existing on Earth over 300 million years ago I previously collected information to write two books on out of place artifacts OOPAs and a book on Giants which evidence shows lived on this Earth millions of years ago While writing my book titled The History of Intelligent Life On Earth from Millions of Years Ago Till Present and generating a timeline on ancient OOPAs found around the Earth I found an interesting pattern It turns out that a large number of these objects were from around 300 million years ago mostly in coal mines and seams All of these objects from the same time period provide good circumstantial evidence that a worldwide civilization existed at that time Given the millions of years which have elapsed since then we are lucky to find even the few OOPAs we have records of which were preserved in coal and rock In this book I put together the evidence and do my best to answer questions like What did the world look like then What were the attributes and culture of this society What types of beings were part of this civilization And other relevant questions It may be hard to believe that intelligent life existed back then but we need to be objective to follow where the evidence takes us **Adams County Bigfoot** Jay Vernon,2022-02-09 One man s personal journey into the unknown What started out as an uneventful
