Rotherham,2013-04-01 The loss of the great fenlands of eastern England is the greatest single removal of ecology in our history So thorough was the process that most visitors to the regions or even people living there have little idea of what has gone For many the Fenlands are the vast expansive flatlands of intensive farming the breadbaskets of Britain Lost are the vast flocks of wetland birds that filled the evening skies in winter the frozen wetlands and the fen skaters of the winter and the abundant black terns or breeding wading birds of the summer months However pause a while off main roads and consider place names and road names Fenny Lane The Withies Commonside Reed Holme Fen Common Turbary Lane Wildmore Adventurers Fen Wicken Fen and more they tell a story of a landscape now gone but once hugely important The Fens bred revolution and civil war and paid the penalty They nurtured religious non conformism with global impact After 1066 the Saxons withheld the Normans onslaught and in the 1970s unting s Beavers took action against twentieth century invaders The fenscapes neither water nor land but something in between breed independence and if necessary dissention This story is of politically and economically driven ecological catastrophe and loss So much has gone but we do not even know fully what was there before With global environmental change and especially climate change fenlands once again have major roles in our sustainable futures      The Lost History of Ancient America Frank Joseph,2016-10-24 The Lost History of Ancient America presents new evidence of transoceanic visitors to America hundreds even thousands of years before Christopher Columbus was born Its 20 eminent contributors are experts in a variety of fields from botany biology and prehistoric engineering to underwater archaeology archaeo astronomy and Bronze Age warfare In ancient times the sea was not an impassable barrier separating our ancestors from the outside world but a highway taking them to every corner of it Never before and nowhere else has so much evidence proving the impact made on America by overseas visitors been assembled You will learn about A chain of stonewalls across southern Illinois that has stood for the last two millennia A profusion of plants flourishing throughout the United States and Canada that originated more than 20 centuries ago Underwater ruins recently found off the coast of Oregon Bronze Age oil wells in Pennsylvania And much much more The Lost History of Ancient America ends the debate between cultural diffusionists who have always known that our ancient ancestors did not consider the sea an impassable barrier and cultural isolationists who have been equally certain that humans lacked the know how and courage for global navigation until a little more than 500 years ago      Pirates and the Lost Templar Fleet David Hatcher Childress,2003 Here stands the New Man His conception of reality is a dance of electronic images fired into his forebrain a gossamer construction of his masters designed so that he will not under any circumstances perceive the actual This New Man s happiness is delivered to him through a tube or an electronic connection His God lurks behind an electronic curtain when the curtain is pulled away we find the CIA sorcerer the media manipulator Jeff Keith is one of the foremost writers and researchers on political conspiracy in the world
