interviewed formally and if this is not done properly incorrect or inadequate information may be recorded or the child's position may not be correctly represented later in court. In cases of child abuse the child may not be the only witness and the quality of their verbal evidence is critical. A Guide to Interviewing Children is a practical guide to the evidential interviewing techniques needed by a range of professionals: social workers, forensic psychologists, lawyers, police, and teachers. It outlines basic techniques, explains how to deal with children of different ages from pre-school to fifteen years, how to deal with parents, the particular issues of sexual abuse, handling multiple interviews of one child, and so on. It is written for an international readership and will be more practical and cover a broader range of contexts than the other titles currently available.

**The Life Story Interview** Robert Atkinson, 1998-01-06. First person narratives are a fundamental tool of the qualitative researcher. One of the latest volumes in the Qualitative Research Methods series, *The Life Story Interview* provides specific suggestions and guidelines for preparing and executing a life story interview. Author Robert Atkinson, Director of the Center for the Study of Lives at the University of Southern Maine, places the life story interview into a wider research context before moving on to planning and conducting the interview. Atkinson carefully covers the classic functions of stories, the research uses of life stories, generating data from a life story, and the art and science of life story interviewing. He also thoroughly examines the potential benefits of sharing a life story, getting the information desired, and questions to ask and transcribing and interpreting the interview. To provide further support for the reader, the book concludes with a sample life story interview. As the use and study of narratives continues to grow in importance throughout the research enterprise, *The Life Story Interview* becomes an even more valuable tool for qualitative researchers in all disciplines.
