The Perseid Collapse Steven Konkoly, 2013-11-27 Book One in The Perseid Collapse Series Alex Fletcher is back in the epic post apocalyptic sequel to The Jakarta Pandemic 2019 Six years after the Jakarta Pandemic decimated the world's population life is back to normal for the Fletchers and most Americans The United States stands at the

brink of a complete domestic and international resurgence with stories of confidence and prosperity dominating the headlines Appearances can be deceiving An undercurrent of paranoia and fear still runs strong below the surface the collective angst spawned by 28 million American deaths forever stamped into population s psyche Suppressed memories of helplessness and desperation anger and jealousy All of it lurks in the shadows waiting to be released On August 19 2019 an inconceivable event will unleash a darkness over the United States A human darkness with a vast appetite for chaos and violence Alex Fletcher will wake to this new world thrown headfirst into an impossible journey His skills and preparations will be put to the ultimate test in a brutally hostile landscape where the forged bonds of friendship and family remain the only true constant Book Two in The Perseid Collapse series Event Horizon will be available by early spring of 2014 *Pandemic, Politics, and a Fairer Society in Southeast Asia* Syaza Shukri,2023-07-20 Employing the Malaysian case as a starting point for examining a wider trend in Southeast Asia this book delves into how politicians and policymakers navigate political uncertainty and the impact of their decisions on creating and maintaining a fairer society Black Flagged Vektor Steven Konkoly,2013-08-06 Book Three in the Black Flagged Series With the most recent bioterrorism threat against the United States neutralized and Dr Anatoly Reznikov in secret custody CIA Deputy Director Karl Berg proposes a more permanent solution to prevent future attacks A covert raid by General Sanderson s Black Flag unit deep inside Russia to destroy a bioweapons program that should have ended with the Cold War The United States isn t the only nation looking to tie up loose ends The sudden abduction of a CIA officer in Stockholm exposes the Russian Foreign Intelligence Service s SVR ruthless campaign to discover the truth behind the massacre of an elite Spetsnaz team sent to eliminate Reznikov and permanently bury his knowledge of Vektor s sinister purpose When the SVR investigation takes a turn that could threaten the mission against Vektor Labs Berg goes off the books like never before to even the odds Through an intricate web of unsavory alliances deviously orchestrated political maneuvers and shockingly brutal black ops sanctions Karl Berg will set in motion an unstoppable chain of events with the potential to ignite a new Cold War Black Flagged Vektor continues the series tradition of gritty unapologetic storytelling plunging readers even deeper into the murky shark infested waters navigated by covert operators and their puppet masters Book 1 Black Flagged Book 2 Black Flagged Redux Book 3 Black Flagged Apex Book 4 Black Flagged Vektor Keywords Free freebie free ebook technothriller Tom Clancy Robert Ludlum covert operations black ops espionage spy thriller special operations FBI CIA terrorism counter terrorism assassination interrogation special agent task force undercover military thriller political thriller permafrost Frederick Forsyth Jack Bauer Muslim terrorist torture international Europe Russia Sweden domestic terror militia biological warfare bioterrorism KGB FSB GRU Spetsnaz SEAL U S Marine Corps Marines *The HIV Pandemic* Peter Piot,2007-12-14 As we approach the 25th anniversary of the first recognition of HIV AIDS in 1981 this book reflects on the international impact of the disease It has persistently remained a global issue with more than 50 million people worldwide estimated to have been infected since that date This ambitious book

written by 165 authors from 30 countries offers a multi country comparative study that examines how the response to the common global threat of HIV is shaped by the history culture institutions and health systems of the individual countries affected Increasingly the shift of health systems has been from prevention only as the main containment strategy to a strategy that includes scaling up HIV treatment and care and prevention services including antiretroviral therapy Thus all parts of the health system must be involved policy makers healthcare professionals and users of the services have been forced to think differently about how services are financed how resources are allocated how systems are structured and organized how services are delivered to patients and how the resulting activity is monitored and evaluated in order to improve the effectiveness efficiency equity and acceptability of the response This book is unique in attempting to describe and assess a range of responses across the globe by situating them within the characteristics of each country and its health system Most chapters combine a health policy expert with an HIV specialist allowing both a top down health system approach and a bottom up HIV specific perspective There are thematic and analytical sections which provide an overview and some suggestions for solutions to the most serious outstanding issues and chapters which analyse specific country and organisational responses There is no perfect health system but the evidence provided here allows the sharing of knowledge and a opportunity to assess the impact and reactions to an epidemic that must be considered a long term issue
