Reflections of a Veteran Pessimist Walter Laqueur, 2017-09-29 Having been exposed early in life to the dangers of extreme nationalism journalist and historian Walter Laqueur chose to align his thinking with Victor Hugo's ideal of a European Brotherhood where the European nations would merge into a superior unit overcoming war and strife However as time wore on and consolidating national solidarities seemed ever more impossible Laqueur became more of a pessimist Today he still hopes for unity but doubts that it will ever come to pass This volume represents the culmination of thought of a most noteworthy contemporary historian Reflections of a Veteran Pessimist is divided into four sections Europe in Decline Jews in the Twentieth Century Russia after the Soviet Union and Observations Having lived under the Nazi regime Laqueur is keenly aware of the dangers posed by strident nationalism in Europe and rampant religious zealotry in the Middle East Reflecting on the lingering financial crisis in Europe Laqueur observes its serious consequences populist movements and growing opposition to European integration He notes that the influx of

refugees resulting from Middle Eastern instability have sharpened the challenges facing Europe and weakened its unity Laqueur also examines the growth of authoritarian nationalism in Russia and the de facto renewal of the Cold War with the West Offering fascinating insights into a range of themes across the period this book is valuable reading for all those interested in twentieth century European Russian and Jewish history

Suprahumanism Daniel S. Forrest, 2014-08-09 We are at a crucial point in time a moment of transition as important as the emergence of Homo sapiens or the beginning of civilisation after the Neolithic Revolution Paradoxically the triumph of the West also called globalisation means the death of Europe and European man Our destiny hangs between two options either to complete the triumph of the egalitarian conception of the world which will bring about the end of history or to promote a historical regeneration Nietzsche prophesied that the Earth will eventually belong to either the last man or to the superman There are no other alternatives

Migration and the Crisis of Democracy in Contemporary Europe Christoph M. Michael, 2021-01-12 This innovative and thought provoking study puts forth a compelling analysis of the constitutive nexus at the heart of the European refugee conundrum It maps and historically contextualises some of the distinctive challenges that pervasive ethnic and cultural pluralism present to real politics as on the level of political theorizing By systematically integrating hitherto insufficiently

linked research perspectives in a novel way it lays open a number of paradoxical constellations and regressive tendencies in contemporary European democracy It thereby redirects attention to the ways in which liberal thought and liberal democratic institutions shape interact with and may even provide justification for illiberal and exclusionary practices This book thus makes an important contribution to the analysis of post migrant realities in Europe and the ways in which they are defined by imperial legacies punitive migration regimes the culturalization of mainstream politics and the discursive construction of a European Other

European Social Movements and Muslim Activism Timothy Peace,2015-07-20 How do progressive social movements deal with religious pluralism In this book Timothy Peace uses the example of the alter globalisation movement to explain why social movement leaders in Britain and France reacted so differently to the emergence of Muslim activism **The Means of Reproduction** Michelle Goldberg,2009 The investigative journalist author of *Kingdom Coming* explores the ways in which restrictions against women s reproductive rights are directly linked to consequences in global development in a cautionary report that covers such topics as abortion female circumcision and human trafficking **Best of Times, Worst of Times** Walter Laqueur,2012-07-03 A memoir by a prominent and highly respected historian and political commentator The Populist Radical Right Cas Mudde,2016-10-04 The populist radical right is one of the most studied political phenomena in the social sciences counting hundreds of books and thousands of articles This is the first reader to bring together the most seminal articles and book chapters on the contemporary populist radical right in western democracies It has a broad regional and topical focus and includes work that has made an original theoretical contribution to the field which make them less time specific The reader is organized in six thematic sections 1 ideology and issues 2 parties organizations and subcultures 3 leaders members and voters 4 causes 5 consequences and 6 responses Each section features a short introduction by the editor which introduces and ties together the selected pieces and provides discussion questions and suggestions for further readings The reader is ended with a conclusion in which the editor reflects on the future of the populist radical right in light of more recent political developments most notably the Greek economic crisis and the refugee crisis and suggest avenues for future research *Migrants and Minorities* Adam Luedtke,2020-05-22 Europe stands on the brink of a new era of diversity and immigration Although many Europeans would prefer to ignore this fact the signs are everywhere Societies and politics are being irrevocably changed by their encounters with migrants both recent and settled This book pinpoints the specific trends and emerging patterns that allow us to understand what these changes mean for the future of Europe On the ground level institutions like schools and local governments have charted unique courses for dealing with diversity And from above the institutions of Brussels become ever more important for regulating the big picture The passage of the Lisbon Treaty

means that common EU rules on immigration will now be easier to achieve and more likely. But what exact role is played by the institutions of the EU in Brussels and how does this vary across policy areas? How are Europeans on all levels dealing with the sensitive questions raised by Islam and how are migrants and minorities dealing with the hostility and xenophobia they routinely encounter? And finally how have the experiences of different European countries in integrating their immigrants and minorities changed our comparative understanding of race, ethnicity and citizenship? These three sets of issues, EU level regulations, Islam and Xenophobia and comparative integration policy are the topics that motivate and structure this book. Noted experts on each topic offer the latest research findings which collectively advance our understanding of how Europe will deal with diversity in the 21st Century. *Weighting Differences* Vasile Boari, Sergiu Gherghina, 2009-05-27

Irrespective of the level of analysis, identity remains a vague concept, slippery and insufficiently elaborated and defined. Be it individual or collective, ethnical or social, local or general, regional, e.g. the EU or global, identity is a recurrent subject in political debates. Situated on the edge of history, anthropology, sociology, political science and psychology, it increasingly becomes a leading paradigm in the area of social sciences. Starting from the broader European perspective, this volume has a multidisciplinary approach and gathers relevant works of internationally renowned scholars who tackle questions related to the Romanian identity. Who are the Romanians? What is the essence of their identity and how has it evolved along history? What are their primary qualities and flaws? How do Romanians perceive their Europeanness and how do they assume their European condition? With no claim to unique answers, the book provides a multi-layered view of what Romanian identity means in contemporary period and how it develops in the broader European context. By challenging the common sense understanding of identity, we raise even more questions to be answered by further research. **The Contemporary Crisis of the European Union** Ivan T. Berend, 2016-12-08

For the first time after more than half a century, some countries were almost forced to step out of the Union. History's most frightening migration crisis shocked Europe and led to the strengthening of several anti-integration parties in various countries. This pioneering book discusses the nine crisis elements that may lead to disintegration of the EU. Beginning with the Greek Debt disaster, this book delves into the cause of the recent European crisis and then onto the recent immigration influx and its consequences, as well as the possibility of Britain's exit from the Union. A concluding chapter based on the facts of positive development during the crises years gives a cautiously optimistic forecast for the future. **Medieval Literature and Postcolonial Studies** Lisa Lampert-Weissig, 2010-06-16

This volume provides a comprehensive introduction to postcolonial medieval studies and examines the historical connections between postcolonial studies and medieval studies. Lisa Lampert-Weissig provides new readings of medieval texts including Wolfram von Eschenbach's *Parzival*, Mandeville's *Travels* and Guillaume de Palerne, a romance about werewolves set in Norman Sicily. In addition, she examines Walter Scott's *Ivanhoe* from the perspective of postcolonial medieval studies, as well as contemporary novels by Salman Rushdie, Tariq Ali, Juan Goytisolo and Amitav Ghosh. *The Restless Wind and Shifting Sands* Harry J.

Security, Religion, and the Rule of Law Tania Pagotto, Joshua M. Roose, G. P. Marcar, 2023-12-22 *Security Religion and the Rule of Law* argues that true substantive and sustainable national security is only possible through respect for the rule of law human rights and religious freedom Despite the emphasis on national security and the war on terror that has preoccupied governments for over two decades nations and the world seem to be more divided than ever with a concomitant impact of increasing the risk of terrorism and religious and political violence The national security paradigm previously reserved primarily for foreign threats has been turned increasingly inwards focusing on a state's own citizens as potential threats This is often along religious lines threatening fundamental human freedoms This book provides a series of critical engagements on some of the most pressing issues at the interface of religion and security today including proposing a deeper engagement with theology when dealing with freedom of religious belief exploring a better understanding between domestic peace and international relations abiding by the rule of law while countering terrorism and developing a broader understanding of identities and of the nature of citizenship It provides the resources to further reflect upon and address these topics as well as stimulate further discussions on religion and security matters across a range of different disciplines Wide ranging case studies consider Australia China Europe the Kurdish people Nigeria Russia Ukraine the United Nations and the United States This book will appeal to students and scholars across a range of disciplines including international relations law philosophy political science religious studies security studies and theology It will also appeal to human rights lawyers judges NGO researchers governmental agency specialists and policy makers

Aid for Elites Mark Moyer, 2016-02-01 Current foreign aid programs are failing because they are based upon flawed assumptions about how countries develop They attempt to achieve development without first achieving good governance and security which are essential prerequisites for sustainable development In focusing on the poorer members of society they neglect the elites upon whose leadership the quality of governance and security depends By downplaying the relevance of cultural factors to development they avoid altering

cultural characteristics that account for most of the weaknesses of elites in poor nations Drawing on a wealth of examples from around the world the author shows that foreign aid can be made much more effective by focusing it on human capital development Training education and other forms of assistance can confer both skills and cultural attributes on current and future leaders especially those responsible for security and governance
