Federalism, Secession, and International Recognition Regime Alex Danilovich, 2018-10-10 Federalism is widely believed to be an efficient tool to quell ethnic conflict yet recently there has been a pronounced global tendency among ethnic minorities to break away from larger nations Iraqi Kurdistan a region within the newly established Iraqi federation also harbors plans to proclaim its own sovereign state This volume analyses the factors that have caused the Kurds to change their minds about living in a federal Iraq and the reaction of their neighbors and the international community at large Using a broad theoretical framework of federal studies and secession theory this book examines the causes for the breakup of ethnic federations fuelled by nationalism as well as the international regime of recognition of newly formed entities It provides a first hand account and theoretically informed interpretations of the Iraqi situation showing that federalism is not always a universal remedy for ethnic and religious conflicts it also emphasizes that the international recognition regime is a significant variable in peoples actions and aspirations to sovereignty Enriching the ongoing debate on federalism and self determination this volume will appeal to scholars and students of politics international relations and comparative politics as well as those interested in federalism the Middle East and Kurdistan

Europe's Hidden Federalism Bojan Kovacevic, 2017-05-18 The hidden federal features of the European Union help explain the challenges of legitimacy democracy and freedom that face an unfinished political community Ideas about federalism and the reality of existing federal states cannot be sharply divided in an analysis of the EU s multilevel political order but so far both scholars and major decision makers have shown interest only in the normal functioning of federal systems ignoring the dilemma of the federation s legitimate authority has resulted in an existential crisis for the EU which has become ever more manifest over recent years This book employs a combination of political philosophy and political science of federal philosophic ideas and their traces in real federal institutions in order to achieve the task of understanding the federal features of the EU governance system The first part of the work focuses on building an appropriate theoretical framework to explain the new meanings attached to familiar notions of democracy legitimacy and citizenship in the context of a political community like the EU In the second part the federal features of the EU s political system are examined in comparison to other current and historical federal perspectives like the US Switzerland Yugoslavia and Germany Through an analysis of the hidden federal aspects of the EU and the links between hidden federalism and the EU s legitimacy crisis this book reveals the patterns that should be avoided and gives us guidelines that should be followed if the EU is to become democratic and

politically united without jeopardising the state character of its members Comparative Health Care Federalism Katherine Fierlbeck, Howard A. Palley, 2016-03-09 Examining the changing nature of health care federalism within a competitive global context Comparative Health Care Federalism provides a rich and nuanced account of the way in which the interplay of federal relationships impact health care within an array of systems The editors have gathered together some of the leading international health policy scholars to provide detailed accounts of the dynamics of federal health policy making within their respective jurisdictions Complementing the theoretical and methodological objectives this book provides a detailed empirical description of the challenges faced by different states and the ways in which health policy making works within the federal quasi federal and functional federal systems presented In chapters on the United States Australia Canada Germany Spain Italy Austria the United Kingdom the EU India China Brazil and the Russian Federation the authors consider what variables contribute to and stand in the way of the formation of robust and sustainable health care systems **Principles and Practices of Fiscal Autonomy** Giancarlo Pola, 2016-03-03 This century has seen the continuation of long term trends in the movement of the territorial boundaries of nation states alongside the emergence of new tensions The repercussions of the Scottish referendum and the heightened urgency of the Catalonia question along with the continued economic problems faced by the Eurozone have given new energy and context to debates on institutional and fiscal autonomy Assessing the impact of increasing calls for wider fiscal autonomy in the UK Spain Switzerland Argentina Brazil Germany Italy and the USA this volume updates and adds significant new context to the debate Framing the discussion on fiscal autonomy and drawing out ethical considerations it portrays the problems connected with the devolution of responsibilities and financial resources to sections of the population sometimes content to be part of a lower layer of government sometimes aspiring to an asymmetrical position or total independence **A Theory of African Constitutionalism** Berihun Adugna Gebeye, 2021-07-08 A Theory of African Constitutionalism asks and seeks to answer why we need a new theoretical framework for African constitutionalism and how this could offer us better theoretical and practical tools with which to understand improve and assess African constitutionalism on its own terms By locating constitutional studies in Africa within the experiences interactions and contestations of power and governance beginning in precolonial times the book presents the development and transformation of African constitutional systems across time and place along with the attendant constitutional designs and practices ranging from the nature and operation of the African state to its vertical and horizontal government structures to its constitutional rights regime This title offers both a theoretically and comparatively rich historically and contextually informed and temporally and spatially extensive account of the nature travails and incremental successes of African constitutionalism with detailed case studies from Nigeria Ethiopia and South Africa A Theory of African Constitutionalism provides scholars policymakers governments and constitution builders in Africa and beyond with new insights for reimagining the purpose substance and scope of constitutions and constitutionalism Federalism as a Tool of

Conflict Resolution Soeren Keil, Elisabeth Alber, 2021-05-13 Looking at the growing use of federalism and decentralization as tools of conflict resolution this book provides evidence from several case studies on the opportunities and challenges that territorial solutions offer when addressing internal conflicts within a variety of countries Federalism has been used as a tool of conflict resolution in a number of conflict situations around the world The results of this have been mixed at best with some countries moving slowly to the paths of peace and recovery while others have returned to violence This volume looks at a number of case studies in which federalism and decentralization have been promoted in order to bring opposing groups together and protect the territorial integrity of different countries Yet it is demonstrated that this has been incredibly difficult and often overshadowed by wider concerns on secession and re centralization and geopolitics and geoeconomics While federalism and decentralization might hold the key to keeping war torn countries together and bringing hostile groups to the negotiation table we nevertheless need to rethink under which conditions territorial autonomy can help to transform conflict and when it might contribute to an increase in conflict and violence Federalism alone so the key message from all contributions cannot be enough to bring peace yet without territorial solutions to ongoing violence it is also unlikely that peace will be achieved The chapters in this book were originally published as a special issue of Ethnopolitics

Federalism and Decentralization in Africa Leonid Issaev, Andrey Zakharov, 2024-11-09 This book examines the challenges and opportunities of administrative and territorial reconstruction in Africa from independence until the present time In light of the rise of separatist movements in various African states and the ethnic linguistic and religious heterogeneity of many African societies the book sheds new light on the fragmentation and decentralization of the African continent The authors analyze the mechanisms forms and models of decentralization practiced today in Africa taking into account both federalist and unitary experiences of decentralization and discuss the potential of federalism to resolve conflicts within the continent The generalizations made in the course of such an analysis can significantly enrich the current vision of the development of the African continent and its future prospects The book will appeal to scholars and students of political science and African studies

Decentralization and Constitutionalism in Africa Charles M. Fombad, Nico Steytler, 2019-09-10 This collection of essays assesses the efforts of African governments to constitutionalise decentralisation be it in the form of federalism local government or traditional authorities Since the end of the Cold War jurisdictions across Africa have witnessed an ostensible return to multi party democracy within the paradigm of constitutionalism and the rule of law Linked to the democratisation process many countries took steps to decentralize power by departing from the heavily centralized systems inherited from colonial regimes The centralization of power typically characterized by the personalization and concentration of power in the hands of leaders and privileged elites in capital cities mostly resulted in repressive regimes and fragile states As decentralisation is a response to these challenges this volume analyses the dynamic relationship between the efforts to implement decentralization and presence or absence of constitutionalism This volume examines a variety of

forms and degrees of decentralization found across Africa It advances a new understanding of trends and patterns and facilitates the exchange of ideas among African governments and scholars about the critical role that decentralisation may play in democratization of and constitutionalism in Africa A Research Agenda for Federalism Studies John Kincaid, 2019-12-27 In this forward thinking book fifteen leading scholars set forth cutting edge agendas for research on significant facets of federalism including basic theory comparative studies national and subnational constitutionalism courts self rule and shared rule centralization and decentralization nationalism and diversity conflict resolution gender equity and federalism challenges in Africa Asia and the European Union More than 40 percent of the world's population lives under federal arrangements making federalism not only a major research subject but also a vital political issue worldwide

Eurasian Empires as Blueprints for Ethiopia Asnake Kefale, Tomasz Kamusella, Christophe Van der Beken, 2021-02-17 This book is a contribution to the global history of the transfer of political ideas as exemplified by the case of modern Ethiopia Like many non European nation states Ethiopia adopted a western model of statehood that is the nation state Unlike the postcolonial polities that have retained the mode of statehood imposed on them by their colonial powers Ethiopia was never successfully colonized leaving its ruling elite free to select a model of modern western statehood In 1931 via Japan they adopted the model of unitary ethnolinguistically homogenous nation state in turn copied by Tokyo in 1889 from the German Empire founded in 1871 Following the Ethiopian Revolution 1974 that overthrew the imperial system the new revolutionary elite promised to address the nationality question through the marxist leninist model The Soviet model of ethnolinguistic federalism originally derived from Austria Hungary was introduced in Ethiopia first in 1992 and officially with the 1995 Constitution To this day the politics of modern Ethiopia is marked by the tension between these two opposed models of the essentially central European type of statehood The late 19th century German German quarrel on the proper model of national statehood for Germany or more broadly modern central Europe remains the quarrel of Ethiopian politics nowadays The book will be useful for scholars of Ethiopian and African history and politics and also offers a case in comparative studies on the subject of different models of national statehood elsewhere **Multinational Federalism in Bosnia and**

Herzegovina Soeren Keil, 2016-04-15 In 1995 none of the political parties representing the peoples of Bosnia preferred a federal option Yet Bosnia became a federal state highly decentralised and with a complex institutional architecture This solution was imposed on them by international actors as a result of peace negotiations following the Yugoslav wars Political parties in post war Bosnia were not willing to identify with or accept the federation The international community intervened taking over key decisions and so Bosnia and Herzegovina became the first state to experience a new model of federalism namely imposed federalism and a new model of a federal state that of the internationally administered federation By combining comparative politics conflict analysis and international relations theory Soeren Keil offers a unique analysis of federalism in post Dayton Bosnia and Herzegovina By exploring this model of imposed federalism not only does this study

greatly contribute to the literature on developments in Bosnia and Herzegovina it also re evaluates comparative federalism in theory and practice This study also offers important conclusions for similar cases both in the Western Balkans region and the wider world where international involvement and federalism as a method of conflict resolution in diverse societies becomes ever more prevalent and important Defunct Federalisms Emilian Kavalski, Magdalena Zolkos, 2016-05-13 Since the end of the Cold War the global arena has become a place for dynamic change in particular for federal political units The focus on defunct federalisms draws attention not only to the difference between state making and nation building it also points to the fact that state making does not necessarily lead to the creation of a national identity This comparative volume looks at the track record of several defunct federalisms to identify options that have been overlooked and decisions that precipitated the collapse Bringing together insights from the study of state failure and federal collapse it examines the ways in which parallel assessment is crucial for suggesting the complex structures of identity accommodation in federal entities The volume is ideal for advanced undergraduates and graduate students as well as university lecturers and researchers working on the issues related to contemporary federalism history of federal units and the questions of national identity *The Soviet Union - Federation or Empire?* Tania Raffass, 2012-06-14 The Soviet Union is often characterised as nominally a federation but really an empire liable to break up when individual federal units which were allegedly really subordinate colonial units sought independence This book questions this interpretation revisiting the theory of federation and discussing actual examples of federations such as the United States arguing that many federal unions including the United States are really centralised polities It also discusses the nature of empires nations and how they relate to nation states and empires and the right of secession highlighting the importance of the fact that this was written in to the Soviet constitution It examines the attitude of successive Soviet leaders towards nationalities and the changing attitudes of nationalists towards the Soviet Union Overall it demonstrates that the Soviet attitude to nationalities and federal units was complicated wrestling in a similar way to many other states with difficult questions of how ethno cultural justice can best be delivered in a political unit which is bigger than the national state From Socialist to Post-Socialist Cities Alexander C. Diener, Joshua Hagen, 2016-04-14 The development of post socialist cities has become a major field of study among critical theorists from across the social sciences and humanities Originally constructed under the dictates of central planners and designed to serve the demands of command economies post socialist urban centers currently develop at the nexus of varied and often competing economic cultural and political forces Among these nationalist aspirations previously simmering beneath the official rhetoric of communist fraternity and veneer of architectural conformity have emerged as dominant factors shaping the urban landscape This book explores this burgeoning field of research through detailed cases studies relating to the cultural politics of architecture urban planning and identity in the post socialist cities of Eurasia This book was published as a special issue of Nationalities Papers **The Political Economy of Pension Policy Reversal in Post-Communist Countries** Sarah Wilson

Sokhey,2017-10-26 This book examines how and why policies are reversed by focusing on post communist backtracking on pension privatization *Tatarstan's Autonomy within Putin's Russia* Deniz Dinç,2021-12-13 This book explores how the Volga Tatars the largest ethnic minority within the Russian Federation a Muslim minority achieved a great deal of autonomy for Tatarstan in the years 1988 to 1992 but then lost this autonomy gradually over the course of the Putin era It sets the issue in context tracing the history of the Volga Tatars the descendants of the Golden Horde whose Khans exercised overlordship over Muscovy in medieval times and outlining Tsarist and Soviet nationalities policies and their enduring effects It argues that a key factor driving the decline of greater autonomy besides Putin s policies of harmonisation and centralisation was the behaviour of the minority elites who were despite their earlier engagement in ethnic mobilization very acquiescent to the new Putin regime deciding that co operation would maximise their privileges **Federalism and the Accommodation of Diversity in Ethiopia** Assefa Fiseha,2006
