**Supermajority Voting in Constitutional Courts** Cristóbal Caviedes, 2024-08-02 This book challenges the wide use of majority rule in many constitutional courts for declaring statutes unconstitutional and argues that these courts should rather perform constitutional review by using supermajority rules Considering that constitutional courts often tackle hard moral issues it is questionable whether a bare majority of judges should suffice for settling them especially considering these courts counter majoritarian nature Further the wide use of majority rule for checking the constitutionality of legislation may increasingly risk their reputation Such a concern is developing in the United States following a series of Supreme Court decisions This book argues that majority rule is unjustified in constitutional review This means that in constitutional review considering majority rule's traits there are no decisive reasons for using this voting rule over other voting rules Additionally the book argues that when checking the constitutionality of legislation constitutional courts should replace majority rule with supermajority rules Thus for declaring statutes unconstitutional it is argued that more than 50% of

the judges present plus one judge present should be needed This book will be of interest to academics researchers and policy makers working in the areas of Constitutional Law and Politics      Consumer Law and Economics Klaus Mathis,Avishalom Tor,2020-08-31 This edited volume covers the challenges currently faced by consumer law in Europe and the United States ranging from fundamental theoretical questions such as what goals consumer law should pursue to practical questions raised by disclosure requirements the General Data Protection Regulation and technology advancements With governments around the world enacting powerful new regulations concerning consumers consumer law has become an important topic in the economic analysis of law Intended to protect consumers these regulations typically seek to do so by giving them tools to make better decisions or by limiting the consequences of their bad decisions Legal scholars are divided however regarding the efficacy and effects of these regulations some call for certain policies to be abolished while others support a regulatory expansion      **The Consumer Welfare Hypothesis in Law and Economics** Fabrizio Esposito,2022-11-18 The Consumer Welfare Hypothesis in Law and Economics is a compelling account of market relations with firm roots in economic theory and legal practice This incisive book challenges the mainstream view that allocative efficiency is about total welfare maximisation Instead it argues for the consumer welfare hypothesis in which allocating resources efficiently means maximising consumer welfare and demonstrates that legal structures such as antitrust and consumer law are in reality designed and practised with this goal in mind      *Law and Justice* Sam Muller,Stavros Zouridis,2012-10-31 The work of HiiL on the law of the future has produced two volumes The Law of the Future and the Future of Law Volumes I and II that bring together 85 think pieces on legal trends in different areas of law and more than 10 interviews with key policy makers as well as incorporating the outcomes of 15 workshops with different legal and justice actors around the world The main question that emerged from this comprehensive process was what can one do with the different legal futures that might come to be as captured in the collection Law Scenarios to 2030 This question could be rephrased who stragises This volume brings you the reflections on this question by a diverse group of thought and practice leaders from different fields and parts of the world Strategy in the justice sector is not an easy thing At the same time the need for coherent strategies seems urgent This book seeks to be a catalyst for broad discussion on this challenge It includes chapters by Geert Corstens President Dutch Supreme Court Mark Ellis Executive Director International Bar Association Adama Dieng Special Adviser to the UN Secretary General on Genocide Kimberly Prost Ombudsperson Security Council s 1267 Committee and Adel Maged Vice President Egyptian Court of Cassation
