Philosophy of Education Louis Mazzullo,2012-09-05 Our current educational initiatives NCLB and Race to the Top are competitive models that reward victory and punish defeat In order to win the Race to the Top we have to hope or plan that our fellow students and teachers as well as our neighboring states and schools will fail Race to the Top therefore insures that we will be a nation of losers and that we will be pitted against our fellow citizens We must engender a more cooperative spirit one that does not endorse an us vs them mentality in which it is believed that the them are taking away from the us We need to reframe our educational philosophy into a model that values each student for his or her individuality and uniqueness that prepares the student with confidence and pride for the worlds of social and civic work and for the personal and professional relationships they will enter upon graduation We need to value the whole child and address key issues that influence our ability to find happiness in accordance with the essence of what it means to be human satisfying interpersonal

relationships satisfaction in work commensurate with our interests and skills and satisfying participation in our civic and political spheres in other words to achieve the highest standards of intellectual social emotional physical and spiritual health

The theme of this book is the wrong way to bring up children which I wanted to write about in both my previous books First Time and Second Time I could have made the theme the book title but I didn t want to ruin the series of Time Hopefully this will be the last book of the series of Time A person that is breathing is not a human being He is just another form in this world of forms He is no different from a dog a cat or a fly When all forms come to the end of their existence in this world they have acquired no consciousness of themselves Only man has the ability to become aware of who and what he is If he does not succeed then his existence ends just like all other forms Some things are just not for most people to know Some things are just too much for the common mortal to wrap his mind around This is why most people have a safe word A special word which they use when they are afraid to talk about something *Mukho Memories* Don Haffner, 2017-05-18 Mukho Memories Don Haffner was a Peace Corps Volunteer in South Korea from 1972 through 1975 He taught ESL English as a Second Language to first year middle school students in the town of Mukho Gangwon Province In the summer of 1975 Don also served as a Volunteer TESOL Teaching English to Speakers of Other Languages Instructor for the K 35 Peace Corps Korea s 35th training program Mukho Memories is the humorous and entertaining story of Don Haffner s Peace Corps Service Peace
