The M14 Battle Rifle Weapon:

The M14 Battle Rifle Leroy Thompson,2014-10-20 The M14 may have only been the primary US service rifle for a little over a decade before being replaced by the M16 but it is still considered by many experts to be the best rifle to ever see US service Primarily designed for a war in Europe where it would take its place alongside the other battle rifles like the FN FAL the M14 saw most of its combat use in the early days of the Vietnam War Maintained until 1970 for compatibility with NATO forces the M14 had a renaissance as a semi automatic sniping weapon and since 2001 the M14 has been employed as a Designated Marksman Rifle being employed by all branches of the US military especially in Afghanistan where the open terrain makes longer range engagements common Featuring specially commissioned full color artwork and archive and close up photographs this engaging study tells the story of the M14 the long lived battle rifle that remains in front line service with US forces more than 50 years after its first adoption

Weapons of the US Special Operations Command Chris McNab,2019-07-25 The units and formations of the US Special Operations Command SOCOM have privileged access to the finest weaponry in the world s arsenal Whether Army Navy Air Force or Marines the SOCOM troops select weapons that match their mission requirements but which also sit at the cutting edge of combat technology This means that while SOCOM troops frequently use standard issue weaponry they also adopt many specialist pieces of kit that are not so accessible to the broader armed services including sniper rifles battle rifles and machine guns as well as high tech tactical accessories used to transform standard weaponry into something exceptional Assessing the technology and capabilities of these combat weapons as well as how they have been used in modern combat this fully illustrated study lifts the veil on some of the most distinctive hand held weapon systems of US special operations forces since 1987
