The Joy of Eating Petia Raeva,2017-01-10 Quick guide for Weigh loss The joy of eating by Mrs Petia Raeva it is a Best Seller on the Bulgarian book market for 2011 The author is a MP of the 41st National Assembly of Republic of Bulgaria The charming lady is 35 years old and creates her own nutrition system diet which its a total hit in Bulgaria Thanks to that same diet she losses 30kg for the period of one year and two months and now she is an embodiment of beauty and political flair The successful nutrition system described by Mrs Raeva in a book with the title The joy of eating embodies in an emblematic way the weight lost enjoying the food and loving your family and your way of living The diet is very simple and has the basic rule of taking pleasure of each food as much as we can The diet being without frills its based on the philosophical principle of taking maximum pleasure and joy of every nutrient and that there is no way toward the happiness but the happiness itself is the way The author reminds herself on a daily basses that everything in ones life including the eating habits its like a long list

with targets and duties but by achieving them one wouldn't automatically reach ultimate gratification. In the meantime, analyzing the current level of satisfaction one reveals how unhappy she is. She implicates joy and happiness in every activity that she does instead of awaiting for it to happen or expecting the food to bring it to her. Adopting the radical idea enough is enough, she escapes the vicious circle: more food, more happiness by rearranging her daily routine, way of life and eating habits. Mrs. Petia Raeva transforms eating into a ritual of senses and that is the secret of her phenomenal success.

The Joy of Fitting in your Old Pants Dinkar, There are some moments in our life which are hard to forget. The joy of being in love for the first time, the moment when you receive your first salary, the kiss of a loved one, the birth of your child, your baby's first steps and the subsequent fall and the moment you can fit in your old pants after weeks of starvation and jogging around. Only to gain it back slowly in a few months. You know we get busy with work, life, the boss gets in our way and our dreams as inches slip slowly by. When one fine day you try to fit in again in those old pants for your cousin's weddings and reality comes staring back at you in the bathroom mirror. Too many laddoos this Diwali, Sigh. Another Diet Book. Why? Yet another diet book. Yep, I understand. There are already hundreds of them out there. Why do I need another one? There are as many books out there as there are diets. Many are excellent, some are good and some are outrightly bad. The problem is that which are excellent are tough to read. With footnotes going in pages and half the books dedicated to references, they are not much fun either. Simplicity is difficult. Try explaining how an airplane flies to a six-year-old and see if you can do it. Damn. It is difficult even for aeronautical engineers. So when scientists talk to other scientists, they can talk in their language and explain everything to each other. But who will teach us normal everyday people what the hell is going on with our bodies? I will tell you who, another layperson. But why fun? Because six-year-olds refuse to learn anything if it's not fun enough. But why a vegetarian book? Because it is so out of fashion that nobody is talking about it. People are talking about veganism, they talk about carnivores, about low carb keto, but nobody likes to talk about plain old vegetarians. As if these people don't exist.
