Tales of Suicide Luigi Pirandello, 1988 Suicide the act of killing oneself voluntarily and intentionally is clearly one of the most important themes developed by Pirandello during his long literary career Although he never focused on self destruction as an end in itself he made ample use of it to dramatise his tragic view of the human condition Indeed this theme recurs with astonishing frequency in his short stories play and novels It even appears sporadically in his poetry

**Suicide in Modern Literature** Josefa Ros Velasco, 2022-01-01 This book analyzes the social and contextual causes of suicide the existential and philosophical reasons for committing suicide and the prevention strategies that modern fictional literature places at our disposal They go through the review of Modern fictional literature in the American and European geographical framework following the rationales that modern literature based on fiction can serve the purpose of understanding better the phenomenon of suicide its most inaccessible impulses and that has the potential to prevent suicide From the turn of the 20th century to the present debates over the meaning of suicide became a privileged site for efforts to discover the reasons why people commit suicide and how to prevent this behavior Since the French sociologist and philosopher mile Durkheim published his study *Suicide A Study in Sociology* in 1897 a reframing of suicide took place giving rise to a flourishing group of researchers and authors devoting their efforts to understand better the causes of suicide and to the formation of suicide prevention organizations A century later we still keep on trying to reach such an understanding of suicide the nature and nuances of its modern conceptualization to prevent suicidal behaviors The question of what suicide means in and for modernity is not an overcome one Suicide is an act that touches all of our lives and engages with the incomprehensible and unsayable Since the turn of the millennium a fierce debate about the state's role in

assisted suicide has been adopted Beyond the discussion as to whether physicians should assist in the suicide of patients with unbearable and hopeless suffering the scope of the suicidal agency is much broader concerning general people wanting to die

**The Suicide Squad** John Sebastian Alexander, 2003

**Utopia's Suicide** John Paul, 2013-12-12 Having one foot in North America and one in Europe the author inevitably compares these two continents their surroundings their people and their modus vivendi The interpretation of happenings on these continents as they relate to one life's adventure is the scope of this work which is before everything else a collage of personal biography illuminated by flashes of the remarkable historical moments preceding the emigration There are moreover interpretations of impressions colored with romantic enchanting mysticism and alternatively subjective impressions of immigrants who came to America to find a better life and expected to some extent to find a promised land on a platter In either case impressions are based on predispositions of what immigrants from the old country envisioned American to be like However gratia is not a prerequisite it does not exist in the meaning of emi nor immi gratia Is this memoir an unprejudiced evaluation and objective notation of experiences as they were or a biased overflow of emotions ridicule and sarcasm or delight and adornment What is the difference between autobiography memoir and diary versus a fictitious rather historical novel in the first place A degree of deviation from factual reality A conglomerate relatively dry when transferred onto paper this cacophony without regard to categorization may enlighten the mind of one American or one potential immigrant by informing or reforming the picture of the mirage of a once magical New World or the romanticism of the Old One
