The Making Of The Tunisian Revolution:

Making of the Tunisian Revolution Nouri Gana, 2013-09-07 From late 2010 to the present day the Arab world has been shot through with insurrection and revolt As a result Tunisia is now seen as the unlikely birth place and exemplar of the process of democratisation long overdue in the Arab world Mixing political historical economic social and cultural analyses and approaches these essays reflect on the local regional and transnational dynamics together with the long and short term factors that when combined set in motion the Tunisian revolution and the Arab uprisings Above all the book maps the intertwined genealogies of cultural dissent that have contributed to the mobilisation of protesters and to the sustenance of protests between 17 December 2010 and 14 January 2011 and beyond

The Crisis of Citizenship in the Arab World, 2017-04-24 The Crisis of Citizenship in the Arab World argues that the present crisis of the Arab world has its origins in the historical legal and political development of state citizen relations since the beginning of modern history in the Middle East and North Africa The anthology covers three main topics Part I focuses on the crisis of the social pact in different Arab countries as it became manifest during the Arab Uprisings Part II concentrates on concepts of citizenship in Islamic doctrine Islamic movements Muslim Brotherhood and Salafism secular political movements and Arab thinkers Part III looks into the practices that support the claims to equal rights as well as the factors that have obstructed full citizen rights such as patronage and clientelism Contributors are Ida Almestad Claire Beaugrand Assia Boutaleb Michaëlle Browers Nils Butenschøn Anthony Gorman Raymond Hinnebusch Engin F Isin Rania Maktabi Roel Meijer Emin Poljarevic Ola Rifai James Sater Rachel Scott Jakob Skovgaard Petersen Robert Springborg Stig Stenslie Morten Valbjørn Knut S Vikør and Sami Zemni

Non-Western Encounters with Democratization Christopher K. Lamont, Jan van der Harst, 2016-03-09 Non Western Encounters with Democratization offers diverse perspectives on democracy and transition spanning the Middle East and North Africa to East Asia This unique collection of essays drawn from contextually rich case studies presents readers with a variety of non western encounters with democracy and provides important insights into the dramatic political and social transformations in these regions over the past decades The book offers a deeper understanding of democratization and challenges the image of western democracy as a universal model to which non western societies aspire Taking the events of the Arab Spring as the starting point international contributors look at why the uprisings that rapidly spread across North Africa and the Middle East had a strong resonance in East Asia but failed to inspire similar revolts Through direct engagement with non western experiences of political transition the book demonstrates a unique coherence across two regions relatively under explored in democratization literature

The Role of the Military in the Arab Uprisings Ali Sarihan, 2023-05-11 Focused on the 2010 2011 Arab Uprisings this book examines the role of the military in Tunisia and Libya arguing that both armies contributed decisively to the outcome and form of the respective uprisings The book begins by contextualizing the uprisings with both countries plagued by anti democratic politics and unequal social and economic structures in the 2000s Alongside this the book explores the key actors and factors leading up to during and after the uprisings Employing a comparative case study methodology and drawing from approaches in rational choice theory and institutionalism the author argues that the tripartite configuration of energy capacity military structure and strength of protest led to dichotomous outcomes in the countries Tunisia where the military defected was marked by a lack of energy wealth apolitical military structure and high level of protest enabling a nonviolent transfer of power In contrast in Libya where parts of the military remained loyal to Gaddafi s regime protests evolved into violent civil conflict Making use of expert and elite interviews obtained from fieldwork in Tunisia as well as data from the research field the book will appeal to specialists and students interested in international politics military and security studies and the MENA region

Routledge Handbook on Human Rights and the Middle East and North Africa Anthony Chase, 2016-11-10 Recent events such as Iran s Green Revolution and the Arab Uprisings have exploded notions that human rights are irrelevant to Middle Eastern and North African politics Increasingly seen as a global concern human rights are at the fulcrum of the region s on the ground politics transnational intellectual debates and global political intersections The Routledge Handbook on Human Rights and the Middle East and North Africa emphasises the need to consider human rights in all their dimensions rather than solely focusing on the political dimension in order to understand the structural reasons behind the persistence of human rights violations explores the various frameworks in which to consider human rights conceptual political and transnational international discusses issue areas subject to particularly intense debate gender religion sexuality transitions and accountability contains contributions from perspectives that span

from global theory to grassroots reflections emphasising the need for academic work on human rights to seriously engage with the thoughts and practices of those working on the ground A multidisciplinary approach from scholars with a wide range of expertise allows the book to capture the complex dynamics by which human rights have had or could have an impact on Middle Eastern and North African politics This book will therefore be a key resource for students and scholars of Middle Eastern and North African politics and society as well as anyone with a concern for Human Rights across the globe *The Adventures of the Constituent Power* Andrew Arato,2017-11-30 Constitutions are made in almost all transformation of regimes What are the dangers and the hopes associated with such a process What can make constitution making legitimate The Adventures of the Constituent Power explores the democratic methods by which political communities make their basic law arguing that the most advanced method developed from Spain and South Africa The first part of this book focuses on history of the idea of constitution making before and during the democratic revolutions of the eighteenth century The second part traces the notion of the constituent power in recent regime transitions that were consciously post revolutionary from Spain to South Africa With the return of revolutions or revolutionary patterns of constitution making the book examines the use and potential failure of the new ideas available The third part then proceeds to consider the type of constitution that is likely to emerge from the post sovereign process **Routledge Handbook of the Arab Spring** Larbi Sadiki,2014-12-17 The self immolation of Mohammed Bouazizi in Tunisia in December 2010 heralded the arrival of the Arab Spring a startling yet not unprecedented era of profound social and political upheaval The meme of the Arab Spring is characterised by bottom up change or the lack thereof and its effects are still unfurling today The Routledge Handbook of the Arab Spring seeks to provide a departure point for ongoing discussion of a fluid phenomenon on a plethora of topics including Contexts and contests of democratisation The sweep of the Arab Spring Egypt Women and the Arab Spring Agents of change and the technology of protest Impact of the Arab Spring in the wider Middle East and further afield Collating a wide array of viewpoints specialisms biases and degrees of proximity and distance from events that shook the Arab world to its core the Handbook is written with the reader in mind to provide students practitioners diplomats policy makers and lay readers with contextualization and knowledge and to set the stage for further discussion of the Arab Spring **Political Change in the Middle East and North Africa** Szmolka Inmaculada Szmolka,2017-06-29 Taking a comparative approach this book considers the ways in which political regimes have changed since the Arab Spring It addresses a series of questions about political change in the context of the revolutions upheavals and protests that have taken place in North Africa and the Arab Middle East since December 2010 and looks at the various processes have been underway in the region democratisation Tunisia failed democratic transitions Egypt Libya and Yemen political liberalisation Morocco and increased authoritarianism Bahrain Kuwait Syria In other countries in contrast to these changes the authoritarian regimes remain intact Saudi Arabia Qatar Arab United Emirates **Arab Spring-Arab Fall** Ayfer Erdogan,2021-04-21 The popular protests in early 2011 were

once seen as a turning point in the history of the Arab world raising hopes for democracy freedom and justice in the Middle East A decade after the uprisings these hopes are largely dashed in each country swept by popular protests with the exception of Tunisia Tunisia became the only democracy in the entire region while Egypt saw its first freely elected president and government thrown out by the army in a bloody coup which resulted in a regime that is no less authoritarian than Mubarak's This book provides a detailed analysis of the political economic and constitutional developments in Tunisia and Egypt In the light of the existing literature on comparative democratization the author explores why Egypt's path to democratization was eroded by several transitional actors while Tunisian political elite managed to move the country towards democracy The book centers its focus on the role of the political agents in designing the transition and explores the transitional period with respect to the interactions among the political elite and their cost benefit assumptions ideological interests as well as their commitment to democratic processes

to a new field of inquiry based on an attentiveness to multilingualism's work beyond the soundtrack *Routledge Handbook of Mediterranean Politics* Richard Gillespie, Frédéric Volpi, 2017-08-14 The Mediterranean space defined by a major sea a large number of littoral countries and to some extent their hinterlands is at the same time an interface between Europe Africa and Asia This brings complex challenges in terms of achieving peace and stability Recently it has received intense international attention through the internal destructiveness and spill over from conflicts primarily those waged in Libya Syria and more remotely Iraq This Handbook provides an overview of the political processes that shape the Mediterranean region in the contemporary context It explores the issues of crucial importance to Mediterranean dynamics through a series of analytical sections that guide the reader towards a comprehensive understanding of the main regional interactions and trends The Handbook explores the complex historical formation of the contemporary Mediterranean geopolitical perspectives issues around peace and conflict the political economy of the region the role of non state actors and social movements societal and cultural trends The wide range of contributions from many of the leading academic experts on the region offers not only insights into the debates and processes that structure each theme but also key pointers for a more general understanding of how distinct political economic social and cultural dynamics interact across the region It will therefore be a key resource for policy makers and students and scholars of Mediterranean politics and international relations

the period from 2011 2012 left an indelible mark on the socio political landscape of the region But that mark was not consistent across the region while some countries underwent dramatic popular social and political changes others teetered on the brink or were left with the status quo intact Street revolutions toppled despotic regimes in Tunisia Libya and momentarily in Egypt while mounting serious challenges to authoritarian regimes in Syria and Yemen Algeria's entrenched bureaucratic cum military authoritarian system proved resilient until the recent events of early 2019 which forced the resignation of President Abdelaziz Bouteflika before the end of his term on 28 April 2019 As in Algeria protestors in Sudan succeeded after months of demonstrations in overthrowing the government of Omar al Bashir Several Arab monarchies still appear stable and have managed to weather the tempest of the Arab revolutions albeit not without fissures showing in the edifice of their states accompanied by some minor constitutional changes Where Tunisians Egyptians Yemenis Syrians and Libyans demanded regime changes in their political systems protesters in the Arab monarchies have called on the kings and emirs to reform their political system from the top down indicating the sizeable monarchical advantage Historical Dictionary of the Arab Uprisings contains a chronology an introduction and an extensive bibliography The dictionary section has over 500 cross referenced entries on the terms persons and events that shaped the Arab Spring uprisings This book is an excellent resource for students researchers and anyone wanting to know more about the Arab Uprisings **Melancholy Acts** Nouri

Gana,2023-08-01 CHOICE OUTSTANDING ACADEMIC TITLE How do the literatures and cultures of oppressed societies survive and flourish in spite of the overdetermining conditions of precarity and injustice of which they are a product and against which they protest Might the symptom of oppression become simultaneously the agent of its critique Melancholy Acts offers richly nuanced reflections on these questions through a series of wide ranging engagements with Arab thought literature and film in the aftermath of the 1948 dispossession of Palestinians and the 1967 military defeat of Arab armies Melancholy Acts offers a psychoaffective theory of cultural production that arises out of the disjunction between political impoverishment and cultural resistance to colonial and neoliberal oppression Such a theory allows the author to trace the melancholy disposition of Arabic literary and filmic productions and to discern the precarious rhetorical modes of their critical intervention in a culture that is continually strained to its breaking point Across six chapters Melancholy Acts reads with rigor and sensitivity contentious topics of Arab contemporaneity such as secular modernity and manhood Arab nationalism and leftism literary and artistic elitism or commitment Islamism and martyrdom The book tracks the melancholy politics that inform the literary and cultural projects of a multitude of Arab novelists Ghassan Kanafani and Naguib Mahfouz poets and playwrights Mahmoud Darwish Nizar Qabbani and Saadallah Wannous filmmakers Nouri Bouzid Moufida Tlatli Youssef Chahine and Hany Abu Assad alongside the work of such intellectuals as Hussein Muruwwa Malek Bennabi Karima Lazali George Tarabishi and Fethi Benslama from within the Arab world as well as such non Arab thinkers as Freud Lacan Adorno Fanon Spivak Butler and i ek Melancholy Acts charts a fresh and bold new approach to Arabic and comparative

literature that combines in interlaced simultaneity a high sensitivity to local idioms as they swerve between symptom and critique with nuanced knowledge of the geopolitics of theory and psychoanalysis **Ben Ali's Tunisia** Anne Wolf, 2023
Based on a wealth of new primary data this book offers the first account of the internal regime factors that caused the fall of Zine el Abidine Ben Ali's long dictatorship in Tunisia during the Arab Uprisings. It challenges studies that focus mass mobilization alone and examines the role of a secret coup d'état staged by regime figures in 2011.
