Underdogma Michael Prell, 2011-02-01 Analyzing and refuting the common assumptions of anti Americanism is a critical contribution to the global political debate Thank goodness for this effort UN Ambassador John Bolton author of Surrender is Not an Option David versus Goliath the American Revolutionaries The Little Engine That Could Team USA s Miracle on Ice the Star Wars Rebel Alliance Rocky Balboa the Jamaican bobsled team and the meek inheriting the Earth Everyone it seems loves an underdog Why is that We begin life tiny and helpless at the mercy of those who are bigger and more powerful than us parents and guardians who tell us what to eat what to wear how to behave even when to sleep and wake up From childhood into adulthood we re told what to do by those who wield more power our parents teachers bosses government So naturally we have a predisposition to resent the overdogs and root for the little guy But this tendency which international political consultant and human rights activist Michael Prell calls underdogma can be very dangerous both to America and to the world at large In Underdogma Prell who has worked world leaders including Israeli Prime Minister Benjamin Netanyahu the Australian and Canadian prime ministers and the Dalai Lama explores our love hate relationship with power within our culture and our politics Underdogma explains seeming mysteries such as why Almost half of Americans blamed President Bush for the attacks of 9 11 even while the American media described the architect of these attacks as thoughtful about his cause and craft and folksy Gays and lesbians protest those who protect gay rights America Israel while championing those who outlaw and execute homosexuals Palestine Environmentalists focus their rage on America even though China is the largest emitter of greenhouse gases The United Nations elevates countries such as Sudan to full membership on the UN s Commission on Human Rights even as the ethnic cleansing of Darfur proceeds Tracing

the evolution of this belief system through human history ancient Greece to Marxism to the dawn of political correctness Prell shows what continuing with this collective mindset means for our future While America and its president increasingly exalt the meek and apologize for their power America's competitors and enemies are moving in a different direction China is projected to overtake the U S economically by 2027 and is ready to move into the position of hegemon and radical Islamists are looking to extend their global territory taking any sign of weakness as a chance to attack America must return to its founding spirit and underdog must stop now our nation depends on it

Dead Woman Walking Anette Ballinger,2019-05-24 This title was first published in 2000 Between 1900 and 1950 130 women were sentenced to death for murder in England and Wales Only 12 of these women were actually executed Thus 91 per cent of women murderers had their sentence commuted whereas if we examine the corresponding figures for men only 39 per cent had their sentence commuted It would appear that state servants working within the criminal justice system were far more reluctant to hang women than men However this text argues that a closer examination of this apparent discrepancy reveals it to be a misconception which has come about as a result of the statistics regarding infanticide That is to say unlike men the vast majority of women murderers have killed their own child or children Once this is taken into account we find that women who had murdered an adult had less hope of a reprieve than men Thus the author shows that the large proportion of women murderers as killers of their own children has created a false impression of how female murderers fared inside the criminal justice system

Misogynies Joan Smith,2013-05-07 Misogynies is one of the most celebrated feminist texts by a British author First published in 1989 it created shock waves

Honour Killing Ayse Onal, 2012-03-05 Honour killing persists across the Middle East where regimes refrain from tackling primitive traditions for fear of sparking unrest Ayse Onal interviewed imprisoned men in Turkey convicted of killing their mothers sisters and daughters The result is a revealing and ultimately tragic account of ruined lives both the victims and the killers in a country where state and religion conspire to hush up the killing of hundreds of women every year **Misjustice**

Helena Kennedy, 2019-09-05 Two women a week are killed by a spouse or partner Every seven minutes a woman is raped Now is the time for change Fascinating and chilling Caroline Criado Perez bestselling author of *Invisible Women* Helena Kennedy one of our most eminent lawyers and defenders of human rights examines the pressing new evidence that women are being discriminated against when it comes to the law From the shocking lack of female judges to the scandal of female prisons and the double discrimination experienced by BAME women Kennedy shows with force and fury that change for women must start at the heart of what makes society just An unflinching look at women in the justice system an important book because it challenges acquiescence to everyday sexism and inspires change The Times **What Kind of Liberation?**

Nadje Al-Ali, Nicola Pratt, 2009-01-07 In the run up to war in Iraq the Bush administration assured the world that America's interest was in liberation especially for women The first book to examine how Iraqi women have fared since the invasion What Kind of Liberation reports from the heart of the war zone with dire news of scarce resources growing unemployment violence and seclusion Moreover the book exposes the gap between rhetoric that placed women center stage and the present reality of their diminishing roles in the new Iraq Based on interviews with Iraqi women's rights activists international policy makers and NGO workers and illustrated with photographs taken by Iraqi women What Kind of Liberation speaks through an astonishing array of voices Nadje Al Ali and Nicola Pratt correct the widespread view that the country's violence sectarianism and systematic erosion of women's rights come from something inherent in Muslim Middle Eastern or Iraqi culture They also demonstrate how in spite of competing political agendas Iraqi women activists are resolutely pressing to be part of the political transition reconstruction and shaping of the new Iraq *Language, Ideology and Identity in Serial Killer Narratives*

Christiana Gregoriou, 2011-01-25 In this book Gregoriou explores the portrayal of the serial killer identity and its related ideology across a range of contemporary crime narratives including detective fiction the true crime genre and media journalism How exactly is the serial killer consciousness portrayed how is the killing linguistically justified and how distinguishing is the language revolving around criminal ideology and identity across these narrative genres By employing linguistic and content related methods of analysis her study aims to work toward the development of a stylistic framework on the representation of serial killer ideology across factual i.e. media texts factional i.e. true crime books and fictional i.e. novels

murder narratives Schema is a term commonly used to refer to organised bundles of knowledge in our brains which are activated once we come across situations we have previously experienced a group schema being one such inventory shared by many By analysing serial murder narratives across various genres Gregoriou uncovers a widely shared group schema for these murderers and questions the extent to which real criminal minds are in fact linguistically fictionalised Gregoriou's study of the mental functioning and representation of criminal personas can help illuminate our schematic understanding of actual criminal minds
