Excerpt from A Life of George Westinghouse Many officers and members of The American Society of Mechanical Engineers have thought that the Society ought to publish the lives of some of its great men In 1912 it published a special edition of the Autobiography of John Fritz Honorary Member and Past President This life of George Westinghouse Honorary Member and Past President is the second in what may be a series of such biographies The activities of George Westinghouse were many and varied and many different activities went on simultaneously He dealt in the same week and often in the same day with organization financial and executive affairs commercial affairs and the engineering details of half a dozen companies in two hemispheres They were as far apart in kind as the air brake and natural gas and as far apart in geography as San Francisco and St Petersburg That being so it seemed that a chronological narrative would of necessity lead to some confusion not to say fatigue for the reader It was decided to treat each topic by itself without regard to what might be going on at the same time in other fields with a short preliminary chapter to which the reader might return to orient himself should he care for instance to know what other serious things were in hand at a critical moment in the history of the air brake It was hoped that by this treatment a certain continuity of impression might be kept in each story told by itself About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
