The Lion of the North G. A. Henty,2008-08-01 [The Lion of the North](#) George Alfred Henty,2020-05-02 The water is six feet deep here now and the horses would be carried down among the rocks and would never get across A mile up the river is always deep and though the current is strong there is nothing to prevent a bold horseman from swimming across I thank you heartily young sir Captain Hume said I can see how broken is the surface of the water and doubt not that it would have fared hard with us had we attempted to swim across here In faith Munro we have had a narrow escape Ay indeed the other agreed It would have been hard if you and I after going through all the battlefields of the Low Countries should have been drowned here together in a Scottish burn Your young friend is a gallant lad and a good swimmer for in truth it was no light task to swim that torrent with the water almost as cold as ice Now sirs will you please to ride on the boy said it is getting dark fast and the sooner we are across the better So saying he went off at a fast run the horses trotting behind him A mile above he reached the spot he had spoken of The river was narrower here and the stream was running with great rapidity swirling and heaving as it went but with a smooth even surface Two hundred yards farther up the boy said is the beginning of the deep if you take the water there you will get across so as to climb up by that sloping bank just opposite He led the way to the spot he indicated and then plunged into the stream swimming quietly and steadily across and allowing the stream to drift him down The horsemen followed his example They had swum many a swollen river and although their horses snorted and plunged at first they soon quieted down and swam steadily over They just struck the spot which the boy had indicated He had already arrived there and without a word trotted forward It was soon dark and the horsemen were obliged to keep close to his heels to see his figure It was as much as they could do to keep up with him for the ground was rough and broken sometimes swampy sometimes strewn with boulders **The Lion of the North**

Henty,2019-01-23 Excerpt from The Lion of the North A Tale of the Times of Gustavus Adolphus and the Wars of Religion We are at least many of us are lamentably ignorant of the leading events of even the most important epochs of Continental history although as many of these events have exercised a marked influence upon the existing state of affairs in Europe a knowledge of them is far more useful and it may be said far more interesting than that of the comparatively petty affairs of Athens Sparta Corinth and Thebes Prominent among such epochs is the Thirty Years War which arose from the determination of the Emperor of Austria to crush Protestantism throughout Germany Since the invasion of the Huns no struggle which has taken place in Europe has approached this in the obstinacy of the fighting and the terrible sufferings which the war inflicted upon the people at large During these thirty years the population of Germany decreased by nearly a third and in some of the states half the towns and two thirds of the villages absolutely disappeared About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
