Night Light An Anthology 2014:

Afloat in Light David Adès, 2017 David Ades luminous and honest collection *Afloat in Light* is chiefly a celebration of fatherhood and of paying attention utilising Simone Weil's notion that attention is the rarest and purest form of generosity. The collection extends to existence and loss and a discourse on motive and meaning. Maps and moral compass are never far away in such explorations and like all good navigators Ades consults the moon and the stars to guide him through emotional terrain that crosses the globe via Australia India and the United States. Poems about connection and love familial intimate parental and friendship hold their weight of history via scar tissue and heritage to allow a vast and full space to fill the maps of our lives. *Afloat in Light* delicately balances that most crucial aspect of life of how the ordinary is anything but. Ades is a poet that fully harnesses the verve of small miracles. Libby Hart

Adaptations in the Franchise Era Kyle Meikle, 2019-01-24 *Adaptations in the Franchise Era* re-evaluates adaptation's place in a popular culture marked by the movement of content and audiences across more media borders than ever before. While adaptation has historically been understood as the transfer of stories from one medium to another more often than not from novel to film the growing interconnectedness of media and media industries in the early twenty first century raises new questions about the form and function of adaptation as both a product and a process. Where does adaptation fit within massive franchises that span pages stages screens and theme parks. Rising scholar Kyle Meikle illuminates adaptation's enduring and essential role in the rise of franchises in the 2000s and 2010s. During that decade and a half adaptations set the foundation for multiplexed multiplied film series piloted streaming television's forays into original programming found their way into audiences hands in apps and video games and went live in theatrical experiences on Broadway and beyond. The proliferation of adaptations was matched only by a proliferation of adaptation as fans remixed and remade their favourite franchises online and off. This volume considers how producers and consumers defined adaptations and how adaptations defined themselves through the endless

intertextual play of the franchise era

Close Encounters of the Third Kind

Dana Polan, 2024-10-03 Steven Spielberg's *Close Encounters of the Third Kind* 1977 is a film very much of its cinematic moment combining the gritty realism of entrapment in the everyday with furtive dreams of escape Dana Polan's compelling study of the film examines its significance to New Hollywood cinema and the science fiction genre He argues that *Close Encounters* is a film that is an allegory of the cinematic experience overall it both narrates a tale of visual seduction and plays it out viscerally for the spectator who shares the amazement of the protagonist Roy Neary as his mundane reality is transformed into something awe inspiring Providing an in depth look into the film's production history including all three different versions Polan situates *Close Encounters* within Spielberg's repertoire He argues that despite the film's popular success it is in fact a rejection of several entrenched American values including family home and marriage It offers through its visual fascination alternative understandings of masculinity and morality familial responsibility and what it means to follow the American Dream

From Light to Dark Tim Edensor, 2017-03-21 Light pervades the world and when it is not light darkness emerges and is combated by electric illumination. Despite this globally shared human experience in which spaces appear radically different depending on time season and weather social science investigation on the subject is meager. *From Light to Dark* fills this gap focusing on our interaction with daylight illumination and darkness. Tim Edensor begins by examining the effects of daylight on our perception of landscape drawing on artworks particular landscapes and architectural practice. He then considers the ways in which illumination is often contested and can be used to express power looking at how capitalist class ethnic military and state power use lighting to reinforce their authority over space. Edensor also considers light artists such as Olafur Eliasson and festivals of illumination before turning a critical eye to the supposedly dangerous sinister associations of darkness. In examining the modern city as a space of fantasy through electric illumination
