Sullivan,2005-01-01 What is the role of feelings in the euthanasia debate This is the central question in William F Sullivan's unique philosophical and ethical exploration of the issue *Eye of the Heart* Employing the principles and techniques of the great Canadian theologian and thinker Bernard Lonergan Sullivan offers a concrete examination of the role of feelings in grasping moral values and the key role that feelings play in ethical decision making The heart has its reasons he argues convincingly and it is a type of reason that bioethicists philosophers and legal scholars all need to know Sullivan draws on his experiences as a practicing physician to analyse the distinguishing elements of human knowing illustrating them through common examples of decision making in health care He highlights the occurrence of various types of insight particularly deliberative insights that occur in the

process of making value judgments These deliberative insights are affective and through them a person apprehends moral values Eye of the Heart proposes that feelings are relevant to knowing moral values and orient us towards moral self transcendence The implications of this stance in ethics are drawn out for the euthanasia debate **Australian national bibliography** ,1961 **Bookbuyers' Reference Book** ,1993 *The Publishers' Trade List Annual* ,1992 *Catalogue of Copyright Entries* ,1954 Forthcoming Books Rose Arny,2003-04 **American Book Publishing Record** ,2003
