In *The Nikon Autofocus System, 2nd Edition*, photographer Mike Hagen, author of the bestselling *The Nikon Creative Lighting System*, takes his deep knowledge of Nikon technology and concentrates on its focus features. In this book, which covers all current Nikon DSLR models including the D5 and D500, Hagen fully explains how Nikon autofocus works, including detailed discussions of all the autofocus modules, drive systems, and camera buttons and menus. He also devotes an entire chapter to explore how focus works with Nikon's lenses. Armed with this general knowledge, Hagen then dives deep and offers camera setups, settings, and best practices for specific field techniques that address the photographic genres that are notoriously challenging for focus: action and sports, indoor and outdoor wildlife (including birds in flight), and macro photography. He also covers genres such as portrait, landscape, underwater, low light, and street photography. Hagen not only advises on the best ways to set up the camera and focus systems, he gives helpful tips and tricks throughout the book. *The Nikon Autofocus System* also covers Live View autofocus methods and settings, achieving great focus in video, AF tracking, AF shooting styles such as back-button AF and shutter-release AF, HDR panoramas, and other techniques for

shooting with a tripod An entire chapter on additional terms and techniques such as hyperfocal distance calibrating lenses focus and flash photography and more

**Vol. 22: Early DSLR Cameras II: Revisiting the Nikon D70 & D70S** Shawn M. Tomlinson, 2018-03-16 The Nikon D70 was Nikon's third revolution just in the digital photography age Never mind the major one in 1959 with the Nikon F that changed professional film photography The first was the Nikon D1 started pro digital photography the end of mainstream film The second was the Nikon D100 the first DSLR to reach the lofty heights of 6.1 megapixels Then there was the D70 It looks and feels like a modern DSLR and Nikon released it in 2002 It was in its own way as revolutionary as the D1 and the D100 I've taken some of my best photos with it The thing is there really is little negative to say about the Nikon D70 D70S You can come up with many reasons to spend more money on a newer DSLR but if you want a great camera for little money the Nikon D70 or D70S is a good bet
