LXD55 and LXD75 Telescopes Martin Peston,2010-04-28 I have owned telescopes for over 25 years since I was a young lad I purchased an LXD55 AR 6 Refractor in 2002 and was one of the first to own one in the UK I am also a proud owner of an LXD75 SC 8 Armed with these two very different telescopes I have spent many hours searching the skies for interesting objects using Meade s Autostar Goto facility My motivation to write a book about the LXD Goto telescope series first came from comments about an LXD55 AR 6 Refractor review that was published on the LXD55 com website From then on I have had regular emails from people asking technical questions about the telescope and which model is best suited for them Whilst attending Star parties in the UK I found that many LXD owners would struggle to use them even at a basic level especially if they have never owned or used an equatorially mounted Goto telescope before Since the first LXD55 models came out in early 2002 owners have struggled to find useful information to help them use the telescopes to the best advantage There have been mixed reactions about its quality and performance Hence this book is directed towards those who are new to Goto and the LXD telescope David Busch's Nikon Z5 II Guide to Digital Photography David D.

The Nikon D70 was Nikon's third revolution just in the digital photography age Never mind the major one in 1959 with the Nikon F that changed professional film photography The first was the Nikon D1 started pro digital photography the end of mainstream film The second was the Nikon D100 the first DSLR to reach the lofty heights of 6.1 megapixels Then there was the D70 It looks and feels like a modern DSLR and Nikon released it in 2002 It was in its own way as revolutionary as the D1 and the D100 I've taken some of my best photos with it The thing is there really is little negative to say about the Nikon D70 D70S You can come up with many reasons to spend more money on a newer DSLR but if you want a great camera for little money the Nikon D70 or D70S is a good bet **David Busch's Nikon D5600 Guide to Digital SLR Photography** David D. Cheap! Expanded and Revised Shawn M. Tomlinson, 2018-04-17 A lot has changed since I wrote and published this first
volume of what became this guide series One thing hasn t I still have the same enthusiasm and joy in photography I had way
back at the beginning of the series I have a lot more knowledge and experience now and occasionally even get close to taking
good photographs That s the thing see I didn t know a lot when I originally wrote this guide I had been working in
photography since 1982 professionally Everything I knew pretty much was self taught In general that s still true There s no
need for you to do it all by yourself too though This book and this series are meant to help you get going with the basics fast
Yes OK I tend to relate my own experiences but that too is meant to help you avoid some basic mistakes I made And perhaps

I write in a tad too friendly manner but think of it as sitting down with me to have a friendly talk about a passion we share

M. Tomlinson,2018-12-22 There s something odd about twin lens reflex TLR film cameras but very appealing I can t really
explain it TLR cameras are bulky awkward to use and well kind of weird Still I love picking one up and taking it out to shoot
Mamiya TLRs comprise a rare line of TLR cameras in that they were the only pro TLR cameras that had interchangeable
lenses other than Contaflex That fact alone made me long for one a long time When I bought my Yashica Mat EM there were
Mamiya TLR cameras available but usually at two to three times the cost Like the other medium format MF cameras
Hasselblad Bronica Pentax etc the Mamiyas were far out of reach That is until around 2003 when photographers were
ditching their film cameras and selling them cheap They may not be as cheap now but they re still worth the prices As I said
shooting with a TLR is an odd experience but one definitely worth experiencing
