

## Friedrich Nietzsche – Genealogy of Morals

### Summary

The *The Genealogy of Morals* is made up of three essays, all of which question and critique the value of our moral judgments. Based on a genealogical method whereby Nietzsche examines the origins and meanings of our different moral concepts.

Nietzsche believes that punishment as a form of slavery to test conscience and remorse and because the origins in the need that came with the development of society to defend our various interests for aggression and liberty and to test their moral code, conscience.

The third essay, "What is the meaning of ascetic ideas?" confounds expectations, the powerful and powerful force that dominates contemporary life. Nietzsche sees it as the expression of a weak, sick self. Unable to cope with the struggles against death, the sick self uses the various methods, its various means, its will, its art, and thought. Unable to keep itself from those instincts, it attempts to self-denial and denies itself as much as
