Sustainable High Volume Road and Rail Transport in Low Income Countries Michael Burrow, Gurmel

Ghataora, Bruce Thompson, Bernard Obika, 2021-01-13 This Special Issue presents an in depth analysis of transport research commissioned by the UK Department for International Development under the High Volume Transport Programme 2017 2023 The analysis done in the period 2018 2019 contributes to the UK response to improving transport in the low income countries in Africa and South Asia As a result key priorities have been identified for applied research in 2020 to make road rail and urban transport more efficient and affordable and all transport greener safer and more inclusive for all users This applied research is a vital link in making transport a sustainable lifeline for people in low income countries because transport gives farmers and manufacturers access to domestic and international markets and people in rural and urban areas access to schools and health services

Application of Multi-Criteria Decision Analysis in Environmental and Civil

Engineering Dilber Uzun Ozsahin, Hüseyin Gökçekuş, Berna Uzun, James LaMoreaux, 2021-02-28 The use of a multi criteria decision making theory was first studied in the 1970s Its application in civil and environmental engineering is a new approach which can be enormously helpful for manufacturing companies students managers engineers etc The purpose of this book is to provide a resource for students and researchers that includes current application of a multi criteria decision making theory in various fields such as environment healthcare and engineering In addition practical application are shown for students manually In real life problems there are many critical parameters criteria that can directly or indirectly affect the consequences of different decisions Application of a multi criteria decision making theory is basically the use of computational methods that incorporate several criteria and order of preference in evaluating and selecting the best option among many alternatives based on the desired outcome
