Counter-Insurgency in Nigeria Akali Omeni, 2017-09-08 This book offers a detailed examination of the counter insurgency operations undertaken by the Nigerian military against Boko Haram between 2011 and 2017 Based on extensive fieldwork conducted with military units in Nigeria Counter Insurgency in Nigeria has two main aims First it seeks to provide an understanding of the Nigerian military s internal role a role that today as a result of internal threats pivots towards counter insurgency The book illustrates how organizational culture historical experience institutions and doctrine are critical to understanding the Nigerian military and its attitudes and actions against the threat of civil disobedience today and in the past The second aim of the book is to examine the Nigerian military campaign against Boko Haram insurgents specifically plans and operations between June 2011 and April 2017 Within this second theme emphasis is placed on the idea of battlefield innovation and the reorganization within the Nigerian military since 2013 as the Nigerian Army and Air Force recalibrated themselves for COIN warfare A certain mystique has surrounded the technicalities of COIN operations by the Army against Boko Haram and this book aims to disperse that veil of secrecy Furthermore the work s analysis of the air force s role in counter insurgency is unprecedented within the literature on military warfare in Nigeria This book will be of great interest to students of military studies counter insurgency counter terrorism African politics and security studies in general

Combat Zulu 'Debayo Adelaja-Olowo-Ake, 2017-02-17 Three dare devil missions unfold in seamless fashion On the plains of Africa s high altitude in the desert somewhere in the vast Sahara and on the raging sea in the South Atlantic Traditional religionists launch a revolution somewhere in East Africa to remove a democratically elected government and the conflict threatens the entire region in the process A well organised band of fighters cum traffickers under the command of a powerful but shadowy character kidnaps a very senior UN diplomat Then a NATO member is jolted when its super oil tanker with 1 million barrels of crude oil is hijacked in a brazen operation in the Gulf of Guinea The world turns to Nigeria to respond to all three Despite

its own problems Nigeria calls up its Air Force and its ace female combat pilot Aminat Zechariah The Red Amazon The drama suspense and action that follows will keep you glued to this book another unputdownable effort by Africa's rising master of the thriller adventure genre *Combat Zulu Bravo Zulu* The National Question Ademola F. Adeyemi, 2001 **Insurgency and War in Nigeria** Akali Omeni, 2019-12-12 Boko Haram is the major threat to the Nigerian state and has emerged as a destabilizing factor across sub-Saharan Africa This is now a major focus of global policy making as between 2013 and 2014 insurgency related deaths in Nigeria exceeded those in Iraq and Afghanistan This book is the first to focus on the military nature of Boko Haram the reasons for its success in those specific regions of the Chad basin it operates in and a detailed history of the Nigerian army's counter insurgency with whom uniquely the author has spent research time The book identifies and analyses the battles and skirmishes on the front line as well as unearthing a wider explanation for Boko Haram's military success and the causes of the instability in the region **The Department of State Bulletin** United States. Department of State, 1969 Legal Restraints on the Use of Military Force Thilo Marauhn, Barry de Vries, 2020-12-15 Professor Michael Bothe is one of the most prominent and influential scholars of international humanitarian law His publications on legal restraints on the use of military force were not only important at the time of their publication They continue to be relevant for the interpretation and further development of this highly important area of international law This volume uniquely collects a wealth of writings that demonstrate that political ideals coupled with a sense of human responsibility can benefit from solid doctrinal underpinnings in international law Michael Bothe's work brings together idealism pragmatism and the law in a unique fashion that not only provides insights into important matters of every day politics but also serves as a stimulus for future contributions to the field The volume thus provides guidance food for thought and incentives for debate in the international legal community among practitioners and academics alike Michael's doctrinal skills combined with his contextualized assessment of the law and his deep empathy for the needs of human beings in difficult situations with a particular view to the victims of armed conflict will provide a stimulus to scholars to address these issues in the future **Boundaries and African Integration** A. I. Asiwaju, 2003 **Biafra's War 1967-1970** Al J. Venter, 2016-02-19 Almost half a century has passed since the Nigerian Civil War ended But memories die hard because a million or more people perished in that internecine struggle the majority women and children who were starved to death Biafra's war was modern Africa's first extended conflict It lasted almost three years and was based largely on ethnic by inference tribal grounds It involved on the one side a largely Christian or animist southeastern quadrant of Nigeria which called itself Biafra pitted militarily against the country's more populous and preponderant Islamic north These divisions almost always brutal persist Not a week goes by without reports coming in of Christian communities or individuals persecuted by Islamic zealots It was also a conflict that saw significant Cold War involvement the Soviets and Britain siding and supplying Federal Nigeria with weapons aircraft and expertise and several Western states Portugal South Africa and

France especially providing clandestine help to the rebel state For that reason alone this book is an important contribution towards understanding Nigeria's ethnic divisions which are no better today than they were then Biafra was the first of a series of religious wars that threaten to engulf much of Africa Similar conflicts have recently taken place in the Ivory Coast Kenya Southern Sudan the Central African Republic Senegal Cassamance both Congo Republics and elsewhere As the war progressed Biafra also attracted mercenary involvement many of whom arriving from the Congo which had already seen much turmoil Western pilots were hired by Lagos and they flew the first Soviet MiG 17 jet fighters to have played an active role in a Western war Al Venter spent time covering this struggle He left the rebel enclave in December 1969 only weeks before it ended and claims the distinction of being the only foreign correspondent to have been rocketed by both sides first by Biafra's tiny Swedish built Minicon fighter planes while he was on a ship lying at anchor in Warri harbour and thereafter by MiG jets flown by mercenaries Among his colleagues inside the beleaguered territory were the celebrated Italian photographer Romano Cagnoni as well as Frederick Forsyth who originally reported for the BBC and then resigned because of the partisan pro Nigerian stance taken by Whitehall He briefly shared quarters with French photographer Giles Caron who was later killed in Cambodia Prior to that Venter had been working for John Holt in Lagos It is interesting that his office at the time was at Ikeja International Airport Murtala Muhammed today where the second Nigerian army mutiny was plotted and from where it was launched From this perspective he had a proverbial ringside seat of the tribal divisions that followed as hostilities escalated Venter took numerous photos while on this West African assignment both in Nigeria while he was based there and later in Biafra itself Others come from various sources including some from the same mercenary pilots who originally targeted him from the air
