Anecdotes and Afterthoughts: Literature as a Teacher's Curriculum Edward Podsiadlik III, 2014-09-23 This qualitative journey explores how literature informs and challenges my understanding of teaching and learning Insights questions and conflicts are revealed through a series of essays in which my evolving teacher identity is illuminated through literature and imagination Hopefully reading this portrayal of literature which has been a source of educational insight and imagination for me will be of use to other educators as they reflect on their own teaching The primary works of literature used to facilitate this journey are The Red Badge of Courage 1895 Les Miserables 1862 and American Idiot 2004 Light in August 1932 Seinfeld scripts 1991 98 and Frankenstein 1818 and The Odyssey Night 1960 and The Souls of Black Folk 1903 By delving beneath my exterior teacher mask a collage of images anecdotes reflections aspirations and fears is exposed As a resource for pre-service teachers or a reflective exercise for veteran teachers this study aims to benefit educators by providing a new pathway through which to better understand their intrinsic identities as teachers Each chapter concludes with Recommendations for Reflection that readers are encouraged to consider individually and or collectively The spirit of daydreams allows me to integrate literature autobiography and imagination through inventive and inspired discourses with literary figures using authentic quotations as content for original commentaries that further examine the intrinsic nature of teacher identity My hope is that this journey will inspire other educators to further reflect on realities and possibilities of what it means to be a teacher

An Unquiet Pedagogy Eleanor Kutz, Hephzibah Roskelly, 1991 *An Unquiet Pedagogy* argues for a new approach to teaching English in the high school and college classroom one that reconceives the relationship of literacy and the learner The title is taken from an essay by Paulo Freire in his book with Donaldo Macedo entitled *Literacy Reading the Word and the World* Like Freire the authors believe that pedagogy must be critical that it must examine the assumptions that teachers and students bring to any educational enterprise that it must take into account the contexts of learners' lives and that it must question rather than quietly accept existing practices Voices of beginning and experienced teachers are heard often in the book exploring how such an unquiet pedagogy might come to be The authors examine the experiences of these teachers as well as their own showing how the classroom can become a place of inquiry for both teachers and students and how theory and research that provide an integrated perspective on language literacy and culture must inform teaching practice Their aim is to transform the English classroom into a place where the imagination becomes central and where learners construct knowledge in the development of real literacy

Delayed Impact Franklin Bialystok, 2000-08-10 Bialystok begins by examining the years immediately following World War II showing that Canadian Jews were not psychologically equipped to comprehend the enormity of the Holocaust Unable to grasp the extent of the atrocities that had occurred in a world that was not theirs Canadian Jews were not prepared to empathize with the survivors and a chasm between the groups developed and widened in the next two decades He shows how the efflorescence of marginal but vicious antisemitism in Canada in the 1960s in combination with more potent antisemitic outrages internationally and the threat to Israel s existence led to an interest in the Holocaust He demonstrates that with the politicization of the survivors and the maturation of the post war generation of Canadian Jews in the 1980s the memory of the Holocaust became a pillar of ethnic identity Combining previously unexamined documents and interviews with leaders in the Jewish community in Canada Bialystok shows how the collective memory of an epoch making event changed in reaction to historical circumstances His work enhances our understanding of immigrant adaptation and ethnic identification in a multi cultural society in the context of the post war economic and social changes in the Canadian landscape and sheds new light on the history of Canadian Jewry opening a new perspective on the
