From Fact to Fiction Dominika Materska, 2002 **Myth and Artifice** Vicky Loel, 2001 **The Novel and the Menagerie** Kurt Koenigsberger, 2007

The first comprehensive account of the relation of collections of imperial beasts to narrative practices in England The Novel and the Menagerie explores an array of imaginative responses to the empire as a dominant shaping factor in English daily life Kurt Koenigsberger argues that domestic English novels and collections of zoological exotica especially zoos circuses traveling menageries and colonial and imperial exhibitions share important aesthetic strategies and cultural logics novels about English daily life and displays featuring collections of exotic animals both strive to relate Englishness to a larger empire conceived as an integrated whole Koenigsberger's investigations range from readings of novels by authors such as Charles Dickens Virginia Woolf Salman Rushdie and Angela Carter to analyses of ballads handbills broadsides and memoirs of showmen Attending closely to the collective English practices of imagining and delineating the empire as a whole The Novel and the Menagerie works at the juncture of literary criticism colonial discourse studies and cultural analysis to historicize the notion of totality in the theory and practice of the English novel In exploring the shapes of the novel in England and of the English institutions that collected exotic animals it offers fresh readings of familiar literary texts and opens up new ways of understanding the character of imperial Englishness across the nineteenth and twentieth centuries

Freakery Rosemarie Garland-Thomson, 1996-10

A groundbreaking anthology that probes the disposition towards the visually different Giants Midgets Tribal non Westerners The very fat The very thin Hermaphrodites Conjoined twins The disabled The very hirsute In American history all have shared the platform equally as freaks human oddities their only commonality their assigned role of anomalous other to the gathered throngs For the price of a ticket freak shows offered spectators an icon of bodily otherness whose difference from them secured their own membership in a common American identity by comparison ordinary tractable normal Rosemarie Thomson's groundbreaking anthology probes America's disposition toward the visually different The book's essays fall into four main categories historical explorations of American freak shows in the era of P T Barnum the articulation of the freak in literary and textual discourses contemporary relocations of freak shows and theoretical analyses of freak culture Essays address such diverse topics as American colonialism and public presentations of natives laughing gas demonstrations in the 1840's Shirley Temple and Tom Thumb Todd Browning's landmark movie *Freaks* bodybuilders as postmodern freaks freaks in *Star Trek* Michael

Jackson's identification with the Elephant Man and the modern talk show as a reconfiguration of the freak show. In her introduction Thomson traces the freak show from antiquity to the modern period and explores the constitutive political and textual properties of such exhibits. *Freakery* is a fresh insightful exploration of a heretofore neglected aspect of American mass culture. *Handbook of the English Novel of the Twentieth and Twenty-First Centuries* Christoph Reinhardt, 2017-06-12 The Handbook systematically charts the trajectory of the English novel from its emergence as the foremost literary genre in the early twentieth century to its early twenty-first century status of eccentric eminence in new media environments. Systematic chapters address The English Novel as a Distinctly Modern Genre The Novel in the Economy Genres Gender performativity masculinities feminism queer and The Burden of Representation class and ethnicity. Extended contextualized close readings of more than twenty key texts from Joseph Conrad's *Heart of Darkness* 1899 to Tom McCarthy's *Satin Island* 2015 supplement the systematic approach and encourage future research by providing overviews of reception and theoretical perspectives. Angela Carter Aidan Day, 1998-06-15 The first full scale study of Angela Carter's fiction with a broad though scholarly appeal. **Religion without Belief** Jeanne Ellen Petrolle, 2008-06-05 In our present cultural moment when God is supposed to be dead and metaphysical speculation unfashionable why does postmodern fiction in a variety of genres make such frequent use of the ancient rhetorical form of allegory. In *Religion without Belief* Jean Ellen Petrolle argues that contrary to popular understandings of postmodernism as an irreligious and amoral climate postmodern allegory remains deeply engaged in the quest for religious insight. Examining a range of films and novels this book shows that postmodern fiction despite its posturing about the unverifiable nature of truth and reality routinely offers theological and cosmological speculation. Works considered include virtual reality films such as *The Matrix* and *The Truman Show* avant garde films and Amerindian and feminist novels. **Theme Parks, Rainforests and Sprouting Wastelands** Richard Todd, Luísa Maria Rodrigues Flora, Luisa Flora, 2000 This lively and fascinating new collection of European essays on contemporary Anglophone fiction has arisen out of the ESSE 3 Conference which was held in Glasgow in September 1995. The contributors live and work in University English Departments in Bulgaria Croatia France Germany Hungary Italy The Netherlands Portugal and Spain as well as in the United Kingdom itself. Essays on general theoretical aspects of the subject head and conclude the collection and there are also essays on individual writers or groups of writers such as John Fowles A S Byatt Charles Palliser Peter Ackroyd William Golding Doris Lessing Daphne du Maurier Angela Carter and Christina Stead. The performative aspect of the subject matter of these essays is balanced by a locational aspect including utopian and dystopian writing in authors as diverse as Michael Crichton Jenny Diski and Salman Rushdie and the travel literature of Bruce Chatwin. These essays show theoretical alertness but no single theoretical position is privileged. The aim of the collection is to provide an indication of the range of work being carried out throughout European academe on Anglophone mainly British writing today. Monsters and Monstrosity Daniela Carpi, 2019-06-17 Every culture knows the phenomenon of

monsters terrifying creatures that represent complete alterity and challenge every basic notion of self and identity within a cultural paradigm In Latin and Greek culture the monster was created as a marvel appearing as something which like transgression itself did not belong to the assumed natural order of things Therefore it could only be created by a divinity responsible for its creation composition goals and stability but it was triggered by some in or non human action performed by humans The identification of something as monstrous denotes its place outside and beyond social norms and values The monster evoking transgression is most often indistinguishable from reactions to the experience of otherness merging the limits of humanity with the limits of a given culture The topic entails a large intersection among the cultural domains of law literature philosophy anthropology and technology Monstrosity has indeed become a necessary condition of our existence in the 21st century it serves as a representation of change itself In the process of analysis there are three theoretical approaches psychoanalytical representational ontological The volume therefore aims at examining the concept of monstrosity from three main perspectives technophobic xenophobic superdiversity Today s globalized world is shaped in the unprecedented phenomenon of international migration The resistance to this phenomenon causes the demonization of the Other seen as the antagonist and the monster The monster becomes therefore the ethnic Other the alien To reach this new perspective on monstrosity we must start by examining the many facets of monstrosity also diachronically from the philological origin of the term to the Roman and classical viewpoint from the Renaissance medical perspective to the religious background from the new filmic exploitations in the 20th and 21st centuries to the very recent ethnological and anthropological points of view to the latest technological perspective dealing with artificial intelligence Magical Realism and Deleuze Eva Aldea,2011-02-10 *Angela Carter: Surrealist, Psychologist, Moral Pornographer* Scott

Dimovitz,2016-03-02 Contributing to the conversation regarding Angela Carter s problematic relationship with what she viewed as the interrelated traditions of surrealism and psychoanalysis Scott Dimovitz explores the intricate connections between Carter s private life and her public writing He begins with Carter s assertion that it was through her sexual and emotional life that she was radicalized drawing extensively on the British Library s recently archived collection of Carter s private papers journals and letters to show how that radicalization happened and what it meant both for her worldview and for her writings Through close textual analysis and a detailed study of her papers Dimovitz analyzes the ways in which this second wave feminist s explorations of sexuality merged with her investigations into surrealism and psychoanalysis an engagement that ultimately led to the explosively surreal allegories of Carter s later more complex and more accomplished work His study not only offers a new way to view Carter s oeuvre but also makes the case for the importance of Angela Carter s vision in understanding the transformations in feminist thinking from the postwar to the postfeminist generation

New Directions in Supernatural Horror Literature Sean Moreland,2018-09-08 This collection of essays examines the legacy of H P Lovecraft s most important critical work *Supernatural Horror in Literature* Each chapter illuminates a crucial

aspect of Lovecraft's criticism from its aesthetic philosophical and literary sources to its psychobiological underpinnings to its pervasive influence on the conception and course of horror and weird literature through the twentieth and early twenty-first centuries. These essays investigate the meaning of cosmic horror before and after Lovecraft, explore his critical relevance to contemporary social science, feminist and queer readings of his work, and ultimately reveal Lovecraft's importance for contemporary speculative philosophy, film, and literature.
