Tomlinson,2018-02-22 Film cameras the bodies themselves have little to do with image quality Lenses are far more important to image quality than camera bodies So as long as your camera has accurate shutter speeds aperture settings and metering the brand you pick doesn t really have much of an effect upon the final image So then it appears the model camera you choose is irrelevant Well no The type of film SLR camera you choose is most important to you as the photographer in features

and convenience Comfort has a lot to do with how good you are as a photographer What I mean by that is that you choose a camera that feels comfortable in your hands and becomes an extension of your brain as a photographer This makes it easier to capture the types of images you want      *Beyond Point-and-Shoot* Darrell Young,2012-04-23 There are two types of new photographers those satisfied with their low cost point and shoot cameras and those more enthusiastic photographers who recognize the limitations of low cost equipment and want to improve their pictures No longer satisfied with simple snapshots the enthusiast moves up to a more complex digital camera one with interchangeable lenses and manual controls to satisfy their artistic urge Assuming little to no knowledge of photographic terms techniques or technology *Beyond Point And Shoot* is intended to help smooth the transition from photographic newbie to real photographer who is experienced in control and passionate about their craft Author Darrell Young explores various types of interchangeable lens cameras focusing on those with larger imaging sensors such as digital single lens reflex DSLR cameras Learn how to get the most out of your camera s automatic and semi automatic exposure modes as well as how to move beyond those modes and take full manual control of your camera Watch your photography improve as you discover how to apply important photographic principles such as depth of field white balance and metering With this newfound knowledge you ll move beyond point and shoot and begin taking truly great photographs Other topics include Camera types Lenses Aperture shutter speed and ISO Metering and shooting controls Lens focal lengths and angles of view The histogram Color spaces Sensors Filters Image file formats Managing digital noise And much more      *Vol. 31: Going Film Pro II: The Canon EOS 1N: Standard Edition* Shawn M. Tomlinson,2018-12-31 In some ways the Nikon F5 is easier to use than the Canon EOS 1N but it is not nearly as elegant There s just something about the way the Canon EOS 1N feels in my hands when I m shooting with it that makes me never want to put it down In that way it reminds me much more of the Nikon F4S than the Nikon F5Practically since I placed the order for the camera it was inevitable that I would need to write about it If you are seeking the perfect late model film SLR camera you need look no further than the second to last pro level Canon EOS 1N Just load a roll of film take the camera in your hands and start shooting You too will never want to let it go      *American Photographer* ,1983      *The Film Photography Book* Shawn M. Tomlinson,2016-07-24 Film is back And about time too We just were getting a little too comfortable with the idea of snapping selfies on our dumb phones at the ends of vanity sticks when film returned to slap us up Film is not for the faint of heart It takes serious effort serious time It costs money for each frame from buying the film to paying to develop it or developing it in a film tank Only those interested in the unique and fantastic look of film will brave this path *The Film Photography Book* is for us those interested in all aspects of film photography from choosing cameras and lenses to choosing film and subjects to buying chemicals and processing The book can serve as a refresher to those who now are returning to film photography after a long absence and as a getting started course for those who never shot film in their lives It s an adventure a new Voyage of Photography part of Shawn M Tomlinson s *Guide to Photography Series* the beginning of a sub series about film photography
