The Oxford Handbook of Roman Sculpture Elise A Friedland, Melanie Grunow Sobocinski, Elaine Gazda, 2015-01-02 The study of Roman sculpture has been an essential part of the disciplines of Art History and Classics since the eighteenth century Famous works like the Laocoön the Arch of Titus and the colossal portrait of Constantine are familiar to millions Again and again scholars have returned to sculpture to answer questions about Roman art society and history Indeed the field of Roman sculptural studies encompasses not only the full chronological range of the Roman world but also its expansive geography and a variety of artistic media formats sizes and functions Exciting new theories methods and approaches have transformed the specialized literature on the subject in recent decades Rather than creating another chronological catalogue of representative examples from various periods genres and settings The Oxford Handbook of Roman Sculpture synthesizes current best practices for studying this central medium of Roman art situating it within the larger fields of Art History Classical Archaeology and Roman Studies This comprehensive volume fills the gap between introductory textbooks and highly focused professional literature The Oxford Handbook of Roman Sculpture conveniently presents new technical scientific literary and theoretical approaches to the study of Roman sculpture in one reference volume while simultaneously complementing textbooks and other publications that present well known works in the corpus The contributors to this volume address metropolitan and provincial material from the early republican period through late antiquity in an engaging and fresh style Authoritative innovative and up to date The Oxford Handbook of Roman Sculpture will remain an invaluable resource for years to come

Masculinity in Roman and Medieval Culture Jaakkojuhani Peltonen, Elina Pyy, Jussi Rantala, 2025-08-07 The chapters in this volume highlight the complexity and diversity of approaches to how ancient and medieval cultures understood martial masculinity and the significance warfare had on masculine values during the premodern era They also point to how these ideals were manifested in numerous environments covering topics from multiple points of view and using a variety of sources and methods In the ancient and medieval periods manliness was often understood as the ability to demonstrate bravery in war and eagerness to use violence in different situations While certain marginal groups such as philosophers and Christians promoted more peaceful ideals of masculinity war and masculinity were tightly connected to the cultures and societies of antiquity and the Middle Ages Indeed in Roman and later medieval culture warfare played an essential role in constructing ideals of proper manliness and masculinity This constructed masculinity manifested itself not only in written culture but also in everyday life both visually and bodily War and Masculinity in Roman and Medieval Culture is intended for those interested in ancient Roman and medieval culture particularly researchers and students of gender and masculinity in Classical Antiquity and the Middle Ages

A Study of the Circulation of Ceramics in Cyprus from the 3rd Century BC to the 3rd Century AD John Lund, 2015-10-26 This is the first monograph devoted solely to the ceramics of Cyprus in the Hellenistic and Roman Periods The island was by then no longer divided into kingdoms but unified politically first under Ptolemaic Egypt and later as a province in the Roman Empire

Submission to foreign rule was previously thought to have diluted if not obliterated the time honoured distinctive Cypriot character The ceramic evidence suggests otherwise The distribution of local and imported pottery in Cyprus points to the existence of several regional exchange networks a division that also seems reflected by other evidence The similarities in material culture exchange patterns and preferential practices are suggestive of a certain level of regional collective self awareness From the 1st century BC onwards Cyprus became increasingly engulfed by mass produced and standardized ceramic fine wares which seem ultimately to have put many of the indigenous makers of similar products out of business or forced them to modify their output Also the ceramic record gradually became less diverse during the Roman Period than before developments which we today might be inclined to view as symptoms of an early form of globalisation **The**

The Cambridge Critical Guide to Latin Literature Roy Gibson, Christopher Whitton, 2024-01-18 The Cambridge Critical Guide to Latin Literature offers a critical overview of work on Latin literature. Where are we? How did we get here? Where to next? Fifteen commissioned chapters along with an extensive introduction and Mary Beard's postscript approach these questions from a range of angles. They aim not to codify the field but to give snapshots of the discipline from different perspectives and to offer provocations for future development. The Critical Guide aims to stimulate reflection on how we engage with Latin literature. Texts, tools, and territories are the three areas of focus. The Guide situates the study of classical Latin literature within its global context from late antiquity to Neo-Latin, moving away from an exclusive focus on the pre-200 CE corpus. It recalibrates links with adjoining disciplines: history, philosophy, material culture, linguistics, political thought. Greek and Latin takes a fresh look at key tools: editing, reception, intertextuality, theory.

Palmyra Joan Aruz, Waleed Khaled al-Asa'ad, Dr. Eleonora Cussini, Lucinda Dirven, Michał Gawlikowski, Maura K. Heyn, Ted Kaizer, Michel Al-Maqdissi, Eva Ishaq, Jørgen Christian Meyer, Dr. Rubina Raja, Andreas Schmidt-Colinet, Judith Weingarten, 2018-08-01 In response to the catastrophic destruction of Syria's ancient city of Palmyra, a UNESCO world heritage site, a group of major international scholars gathered to focus on the art, archaeology, and history of the beleaguered site and present their latest findings. Their papers, given at a symposium at The Metropolitan Museum of Art in May 2016, have been collected in this fascinating and important publication. They are accompanied by a moving tribute by Waleed Khaled al-Asa'ad to his father, Khaled al-Asa'ad, the Syrian archaeologist and head of antiquities for the ancient city of Palmyra, who was brutally murdered in 2015 while defending the site.

Palmyra: Mirage in the Desert published simultaneously in English and Arabic is the latest volume in the Metropolitan Museum symposium series. It is a major contribution to the knowledge and understanding of this multicultural desert located at the crossroads of the ancient world that will help preserve the memory of this extraordinary place for generations to come.

The World between Empires Blair Fowlkes-Childs, Michael Seymour, 2019-03-18 The World between Empires presents a new perspective on the art and culture of the Middle East in the years 100 B.C. to A.D. 250, a time marked by the struggle for control by the Roman and Parthian Empires. For the first time, this book weaves together the cultural histories of the cities along the great incense and silk routes that connected southwestern Arabia, Nabataea, Judaea, Syria, and Mesopotamia. It captures the intricate web of influence and religious diversity that emerged in the Middle East through the exchange of goods and ideas. And for our current age, when several of the archaeological sites featured here, including Palmyra, Dura Europos, and Hatra, have been subject to deliberate destruction and looting, it addresses the crucial subject of preserving what has been lost and contextualizes the significance of these works on a local and global scale. This essential volume features 186 objects of exceptional importance from Europe, the Middle East, and the United States. Readers

are taken on a fascinating journey that explores sites of intense political and religious struggles against Roman rule as well as important religious centers and military bulwarks of the Parthian Empire Reaching across two millennia The World between Empires brings vividly to life how individuals and cities in ancient times defined themselves and how these factors continue to resonate today p p1 margin 0 0px 0 0px 0 0px 0 0px font 14 0px Verdana Icon, Cult, and Context Maura K. Heyn,Ann Irvine Steinsapir,2016-12-31 This festschrift honors UCLA professor emerita Susan Downey and her meticulous scholarship on religious architecture and imagery in the Roman Hellenistic world The iconography of gods and goddesses the analysis of sacred imagery in the context of ancient cult practices and the design and decoration of sacred spaces are the main themes of the book Authors examine such subjects as painting from Dura Europos Hellenistic sculpture at Saqqara in Egypt Roman cameo glass Pompeian fresco and aspects of Venus in portrait sculpture The essays on Dura Europos are especially valuable in light of the present turmoil in the region Professor Downey s influence shines through in these discussions which echo her mentorship of several generations of art history and archaeology students and recognize her scholarly achievements The broad temporal and geographic parameters of the volume are expansive and the juxtaposition of images and analyses leads to surprising new conclusions
