- **Available in five sophisticated colors**
Available in five sophisticated colors: silver, gray, red, pink and gold.

- **Face Detection technology**
Face Detection technology detects up to eight individual faces and controls flash, focus, exposure, and white balance to deliver accurate, natural skin tones with reduced red-eye for beautiful images of family and friends. Face Detection can even distinguish between children and adults, so you can prioritize the camera's focus on children in the scene for clear images of their memorable moments.
- **Smile Shutter™ technology**
The popular Smile Shutter™ technology automatically detects and captures smiling faces. Simply choose the Smiley Face feature and the camera will capture a smile the moment it happens. You can also select subject priority (Adult or Child Priority or touch subject on screen) and indicate the degree of Smile Detection Sensitivity to high (small smile), medium (laugh) or low (grin).
- **Double Anti-blur Solution**
The combination of Optical SteadyShot™ image stabilization and High ISO sensitivity helps compensate for shaky hands, minimizes blur and allows flash-free shooting to preserve the mood.
- **Optical SteadyShot™ image stabilization**
Optical SteadyShot™ image stabilization uses a built-in gyro sensor to detect camera shake and automatically shifts the lens to help prevent blur without sacrificing image quality.
- **High Sensitivity ISO 3200**
High ISO allows for faster shutter speed, so you can take pictures indoors or in low light without the need for a flash. In addition to High Sensitivity Mode (ISO), you can select up to eight ISO settings (Auto, 80, 100, 200, 400, 800, 1600, 3200) when shooting in Program Auto Mode to adjust sensitivity to your shooting conditions.
