Fully updated throughout with 97% new references and over 1,200 new company examples the Seventh Edition features 50% new cases, new self assessments and new applications and new coverage of current topics mandated by the AACSB.

Android Application Development for the Intel Platform Ryan Cohen, Tao Wang, 2014-09-17 The number of Android devices running on Intel processors has increased since Intel and Google announced in late 2011 that they would be working together to optimize future versions of Android for Intel Atom processors. Today Intel processors can be found in Android smartphones and tablets made by some of the top manufacturers of Android devices such as Samsung, Lenovo and Asus. The increase in Android devices featuring Intel processors has created a demand for Android applications optimized for Intel Architecture. *Android Application Development for the Intel Platform* is the perfect introduction for software engineers and mobile app developers. Through well designed app samples, code samples and case studies the book
