Soul Prophecy English Edition:

The Afterlife of the Platonic Soul Maha Elkaisy-Friemuth, John Myles Dillon, 2009 Plato's doctrine of the soul its immaterial nature its parts or faculties and its fate after death and before birth came to have an enormous influence on the great religious traditions that sprang up in late antiquity beginning with Judaism in the person of Philo of Alexandria and continuing with Christianity from St Paul on through the Alexandrian and Cappadocian Fathers to Byzantium and finally with Islamic thinkers from Al Kindi on This volume while not aspiring to completeness attempts to provide insights into how members of each of these traditions adapted Platonist doctrines to their own particular needs with varying degrees of creativity

Unmasking the Male Soul Wilmer G. Villacorta, 2019-09-23 Unmasking the Male Soul is about freedom that confronts the innate and enslaving obsession for power and control in destructive ways At the core of this liberating process we must acknowledge that we cannot escape the sociocultural matrix in which every human being emerges In denying their fallen nature human beings set aside their dependency on God and become self centered and self reliant It is from their self centered hearts that human beings foster dynamics of coercion domination competition and distorted self realization at the expense of others This cycle of shame and guilt is well disguised behind a mask which enables them to enact these dynamics in subtle ways At times even in the name of religion men followed the illusion of their internal insecurities and became dependent on masks of power and control It is time to break away from the chains of exclusion and devaluation of women in Christian leadership Masculinities have only perpetrated a narrative of exceptionalism as the apex of humankind and often they have contrasted to subservient expectations of women in leading others Each chapter responds to the implicit male silence on the issue in a multidisciplinary way with historical sociocultural theological and scriptural implications In this book I will endeavor to challenge the masks of masculinities and dismantle several mental models that foment a gender divide in Christ like leadership in the twenty first century

On the intercourse between the soul and the body ... A new translation [with the preface to the first English edition by Thomas Hartley]. (Fourth edition.) Emanuel Swedenborg, 1812

An Illustrated Commentary on the Acts of the Apostles Lyman Abbott, 1876 **Soul and Body Diseases, Remedies and Healing in Middle Eastern Religious Cultures and Traditions**, 2023-07-31 Aiming to develop a less studied literary genre this book provides a well rounded picture of spiritual and physical diseases and their remedies as they were ingrained

in the imagination and practices of Middle Eastern Abrahamic cultures with a special emphasis of Christian communities Greeks Byzantines Syrians Armenians Georgians Ethiopians The volume traces traditions dealing with the onset of a disease in the body and soul the search for remedy the maintenance of healing and the engagement of these processes with faith either through their affirmation in the public sphere or remaining within the personal framework as in monastic traditions A recurring presence in religious literature and the history of the intellectual world the confrontation between disease and healing may well still be current for our modern understanding of the paths to seeking and maintaining the health of one's body and soul without excluding the factor of faith as a core principle

Science of the Soul in Ibn Sīnā's Pointers and Reminders Michael A. Rapoport, 2023-02-13 In *Science of the Soul in Ibn Sīnā's Pointers and Reminders* Michael A. Rapoport provides a philological and interpretive guide for critically reading and interpreting Ibn Sīnā's Avicenna's 1037 most challenging and influential text Rapoport argues that chapters VII-X of the *Pointers* present scientific explanations for phenomena related to the human soul from intellection to divination magic and marvels within the framework of Ibn Sīnā's *Metaphysics of the Rational Soul* This book dispels widespread notions that the *Pointers* represents Ibn Sīnā's mystical or Sufi philosophy and therefore stands apart from the rest of his corpus

On the Soul Aristotle, 2018-05-11 the more honourable animals have been allotted a more honourable soul What is the nature of the soul It is this question that Aristotle sought to answer in *De Anima On the Soul* In doing so he offers a psychological theory that encompasses not only human beings but all living beings Its basic thesis that the soul is the form of an organic body sets it in sharp contrast with both Pre-Socratic physicalism and Platonic dualism *On the Soul* contains Aristotle's definition of the soul and his explanations of nutrition perception cognition and animal self-motion The general theory in *De Anima* is augmented in the shorter works of *Parva Naturalia* which deal with perception memory and recollection sleep and dreams longevity life cycles and psycho-physiology This new translation brings together all of Aristotle's extant and complementary psychological works and adds as a supplement ancient testimony concerning his lost writings dealing with the soul The introduction by Fred D. Miller Jr explains the central place of the soul in Aristotle's natural science the unifying themes of his psychological theory and his continuing relevance for modern philosophy and psychology

The Passions of the Soul in the Metamorphosis of Becoming Anna-Teresa Tymieniecka, 2013-03-09 Over the millennia philosophy has sought the ultimate understanding of the full human horizon of existence as well as of human destiny and the ultimate sense of it All The innumerable attempts to grasp the answers to these questions each taking its own approach and having its own preconceptions have engendered a range of different philosophical approaches one so broad that seemingly unbridgeable rifts impede possible cross-fertilizing communication And yet the themes of all of them e.g. the immeasurable cosmos life the individual being bearing life the human person within his or her world and his or her longings to transcend that world the

human mind its pragmatic cognitive tools creative speculative pursuits remain constants The logos they all share is one It is not that no vicarious sharing of intuitive glimpses by the proponents of the varied doctrines and methods in question occurs The history of philosophy is in fact marked by the juxtaposing of theories and approaches having different trajectories and by the mixing of insights the crossing of borders etc However what is greatly needed is in depth comparison of the various doctrines and a reflection on the contrasting opposing clashing perspectives that seeks foundations for all of them in the human creative condition in that microcosm that extends its tentacles toward the two great infinities the external infinity of the cosmos and the internal infinity of transcending destiny
