

The M800 is designed to work on any diesel engine with induction timing and a timing position reasonably.

Features

The M800 Diesel Timing Meter consists of both a precision Timing Meter and a tachometer used in servicing modern diesel engines. A Luminosity Probe is glow plug substitute with a transparent window permits the light of combustion to be seen outside the engine. A Photo Detector senses this light. A Repetitive Pickup is inserted into a holder, normally located at the front of the engine near the harmonic balancer. This probe senses a notch or protrusion in the rotating member. By processing these signals, the meter simultaneously displays the timing angle in crankshaft degrees on the upper meter and engine rpm on the lower meter. This meter provides extremely accurate, reliable, and repeatable readings.

Diagnosis of a number of engine problems can be detected by simply installing the Luminosity Probe in any cylinder and making a visual check of the combustion. With a minimum of experience, adjusting can be detected easily.

Meter Scales

The M800 consists of two meters in one case. The upper meter indicates engine timing in $1/2^\circ$ increments from -20° After Top Dead Center (ATDC) to 20° Before Top Dead Center (BTDC). The lower meter indicates engine revolutions per minute (rpm) on the upper scale from 200 to 1800 rpm with 20 rpm per division, and the lower scale from 0 to 6000 rpm with 200 rpm per division.

Controls

The tachometer scale switch on the left selects 200-1800 rpm or 0-6000 rpm. The effect switch on the right selects the timing position, "A" (ATDC) and "B" (BTDC).

Leads

The M800 has battery leads that connect to 12 volt D.C. The Optical Detector is pushed into the Luminosity Probe. The Repetitive Pickup lead connects to the Repetitive Pickup.

Repetitive Pickup

The Repetitive Pickup is installed into a holder provided by the engine manufacturer. It senses crankshaft position and rpm. A connector is provided for easy replacement.

Luminosity Probe

When substituted for a glow plug, the Luminosity Probe permits detection of combustion light outside of the engine.

GM 6.2 & 6.5 Liter Diesel Engines John F. Kershaw, 2020-08-15 Finally a rebuild and performance guide for GM 6 2 and 6 5L diesel engines In the late 1970s and early 1980s there was considerable pressure on the Detroit automakers to increase the fuel efficiency for their automotive and light truck lines While efficient electronic engine controls and computer controlled gas engine technology was still in the developmental stages the efficiency of diesel engines was already well documented during this time period As a result General Motors added diesel engine options to its car and truck lines in an attempt to combat high gas prices and increase fuel efficiency The first mass produced V 8 diesel engines of the era the 5 7L variants appeared in several General Motors passenger car models beginning in 1978 and are often referred to as the Oldsmobile Diesels because of the number of Oldsmobile cars equipped with this option This edition faded from popularity in the early 1980s as a result of falling gas prices and quality issues with diesel fuel suppliers giving the cars a bad reputation for dependability and reliability The 6 2L appeared in 1982 and the 6 5L in 1992 as the focus for diesel applications shifted from cars to light trucks These engines served faithfully and remained in production until 2001 when the new Duramax design replaced it in all but a few military applications While very durable and reliable most of these engines have a lot of miles on them and many are in need of a rebuild This book will take you through the entire rebuild process step by step from diagnosis to tear down inspection to parts sourcing machining and finally reassembly Also included is valuable troubleshooting information detailed explanations of how systems work and even a complete Stanadyne DB2 rebuild section to get the most out of your engine in the modern era If you have a 6 2 or 6 5L GM diesel engine this book is a must have item for your shop or library **Fleet Owner** ,1982
