The Report: Philippines 2016 Oxford Business Group, 2016-04-08. The Philippines' emergence as a growth leader has been building gradually since the 1990s following a long period of low growth and political upheaval. As of the 2010s, improved governance under the administration of President Benigno Aquino III has helped to accelerate foreign direct investment (FDI) in business process outsourcing while reviving FDI into the manufacturing sector. This and a demographic bulge in the young adult bracket helped bring the average pace of growth in the first half of the 2010s to 6.3% beating all the country's main South East Asian peers.
