extraordinarily built we've seen to date. The main cam uses a massive 108MP sensor that combines 9 small pixels into a big one with a pixel binning technology designed to use the extra information being gathered. Samsung calls it "Pixel Shift" the telephoto shooter. This has an unmatched blend of a large 48MP imager with a periscope lens presenting 4x optical zoom above the main. There is another ultra camera touch over the front. Samsung's fitted a 40MP selfie unit to make it unique from the regular 10MP units on the ordinary S21s. Read along as you get to know your device.
