The Birth and Unfolding of Phases in History Michael A. Susko, 2025-09-10 *The Birth and Unfolding of Phases in History* From Neolithic to World Pueblo and U S History brings together four major works into a single arc of human time Michael A Susko argues that the rhythm of history is not confined to the rise of empires but begins in the Neolithic with triadic 45 year generations that set the first phases of historical time in motion Using this framework the book explores Neolithic atal h y k as a non empire model of symbolic and generational phasing This Initial work is in progress World history through Egypt Judah Israel Rome and the Medieval Modern era contrasting empire based and prophetic alternatives Ancestral Pueblo history as a more egalitarian path outside empire s mold U S history as a largely empire driven model tempered by ideals of freedom and equality This panoramic view balances empire and non empire trajectories showing how civilizations universalize their visions either through force or through sharing covenant and inclusion Written in accessible language yet grounded in rigorous patterning it invites readers to see history not as inevitable empire but as a set of choices that continue to shape our present and future

Corporate Opportunities Marco Claudio Corradi, 2021-08-26 This monograph provides a comprehensive analysis of corporate opportunities doctrines from a comparative perspective It looks at both common law and civil law rules and relies to a large extent on a law and economics approach This book broadens the conventional view on corporate opportunities a vital step in light of the adoption of corporate opportunities rules in civil law jurisdictions and in light of investors ever changing strategies This approach considers institutional complementarities and especially industrial complementarities The book thus explores several jurisdictions and their economic and industrial environments whilst also assessing the impact of

globalisation onto legal reform Furthermore it analyses the problems related to the application of corporate opportunities rules to cross border venture capital In normative terms the book advances one main stance articulated in three points first it proposes different sanctions for undisclosed and disclosed misappropriations supporting the core idea that sanctions should be set against disclosure and not authorisation Secondly it advances the idea that sanctions against undisclosed misappropriations should be more severe than the ones presently applied Thirdly it considers the possibility of a more flexible treatment of disclosed misappropriations This study is positioned at the intersection of several fields providing a lens into a much broader range of dynamics that will be of interest to a varied international readership and offering a window into the broader institutional dynamics at work in centres of innovation eg Silicon Valley and industrial districts in other jurisdictions It is rooted in law and economics but the emphasis is placed on how corporate opportunities rules fit within a broader set of institutional dynamics that affect innovation industrial efficiency and economic competitiveness **A Rosetta Key for U.S. History** Michael A. Susko,2023-12-21 This work explores a generational history from America s Colonial period to the United States of contemporary times A novel historical approach will rely on generational markers every 15th year rather than yearly astronomical dates This method will make history more accessible and its patterns more apparent Identified from cultures presented in an earlier volume the phasings are 1 Invisible Beginnings 2 Establishment and Testing 3 Novel Consolidation and Opening Up 4 Crisis and Creativity 5 Empire and Inclusion and 6 Rigidification or Renewal This history does not seek to hide or obscure the shadow side of America nor does it fail to present beauty and light especially during the 30s generational phase One discovery prompted by this generational time chart was to more fully consider the importance of New Spain in understanding U S history A second and related theme is inclusion of the Indigenous whose influence extends to all phases of American history Come journey with us and experience historical events and people s lives generation by generation and see how they fit into historical phases Such an awareness the author contends will help us to make the generational choice of our times The Times Index ,2011 Indexes the Times Sunday times and magazine Times literary supplement Times educational supplement Times educational supplement Scotland and the Times higher education supplement *Samsung Galaxy S9 Plus Manual: Simplified Samsung Galaxy S9/S9 Plus User Guide for Seniors: Learning to Handle Stunning Features Within 5 Minutes* John K.
