

UBD Lesson Plan Grade 7 Mathematics

Subject: Mathematics

Quarter: Fourth Quarter

Topic: Define and Explain the Importance of Statistics

Teacher: Elrica F. Rendon

Stage 1- Desired Results	
CONTENT STANDARD	PERFORMANCE STANDARD
The learner demonstrates understanding of the key concepts, uses and importance of Statistics, data collection/gathering and different forms of data representation, measures of central tendency, measures of variability, and probability	The learner is able to collect and organize data systematically and compute accurately measures of central tendency and variability and apply these appropriately in data analysis and interpretation in different fields.
ESSENTIAL UNDERSTANDING	ESSENTIAL QUESTIONS
Student will understand that systematically collected and organized data on tabular and graphical representation be accurately computed and analyzed by applying measures of central tendency and variability	How can systematically collected and organized data on tabular and graphical representation be accurately computed and analyzed to develop appropriate interpretation and sound conclusions.
Transfer Goal: Students on their own and the long run will systematically collect, organize, and compute through the measures of central tendency and variability through tabular and graphical representations to realize the importance of Statistics in daily life and to formulate appropriate interpretation and sound conclusions.	
KNOWLEDGE	SKILLS
THE STUDENTS WILL BE ABLE TO KNOW: <ul style="list-style-type: none">the definition and explanation of the importance of Statistics.gathering statistical data.organizing data in a frequency table	THE STUDENTS WILL BE ABLE TO: <ul style="list-style-type: none">define and explain the importance of Statistics.gather statistical data.organize data in a frequency table.

School Mathematics Curricula Catherine P. Vistro-Yu, Tin Lam Toh, 2019-04-26 This book sheds light on school mathematics curricula in Asian countries including their design and the recent reforms that have been initiated By discussing and analyzing various problematic aspects of curriculum development and implementation in a number of East and South Asian countries and offering insights into these countries unique approaches to supplementing school mathematics curricula it contributes to shaping effective policies for implementation assessment and monitoring of curricula The book covers a wide range of issues curriculum design localization of curricula directions of curricular reforms mathematics textbooks assessment within the curriculum and teachers professional development which are of interest to a wide international audience

Schoolwide Action Research for Professional Learning Communities Karl H. Clauset, Dale W. Lick, Carlene U. Murphy, 2008-05-15 Clearly shows the success that can occur when a staff learns together I highly recommend this book to aspiring and beginning principals as well as those with years of experience Paul Young Executive Director West After School Center Former President National Association of Elementary School Principals Foster schoolwide professional learning through a collaborative action research model Action research is a popular method for individual educators to examine their practices and grow in their profession In this how to guide readers will learn how Whole Faculty Study Groups WFSGs use action research to involve an entire school in advancing staff learning and school performance The WFSG model is a type of professional learning community PLC that catalyzes school change with schoolwide action research as a central component With over 20 years of experience the authors draw from hundreds of examples and case studies to describe how implementing WFSGs can help students teachers administrators and other staff members work collaboratively to improve teacher practice and student learning The authors empirical data and comprehensive approach help deepen educators understanding of how to use meaningful action research to strengthen teamwork and realize school reform Additionally readers will learn how The WFSG system compares with other approaches to action research The schoolwide action research process can be applied in a wide variety of school reform efforts Study groups can move from discussion to action Principals and district leaders can support schoolwide action research Discover the ways WFSGs can enhance student learning and result in real school improvement in this highly relevant must have guide

Understanding by Design Grant P. Wiggins, Jay McTighe, 2005 What is understanding and how does it differ from knowledge How can we determine the big ideas worth understanding Why is understanding an important teaching goal and how do we know when students have attained it How can we create a rigorous and engaging curriculum that focuses on understanding and leads to improved student performance in today s high stakes standards based environment Authors Grant Wiggins and Jay McTighe answer these and many other questions in this second edition of *Understanding by Design* Drawing on feedback from thousands of educators around the world who have used the UbD framework since its introduction in 1998 the authors have greatly

revised and expanded their original work to guide educators across the K 16 spectrum in the design of curriculum assessment and instruction With an improved UbD Template at its core the book explains the rationale of backward design and explores in greater depth the meaning of such key ideas as essential questions and transfer tasks Readers will learn why the familiar coverage and activity based approaches to curriculum design fall short and how a focus on the six facets of understanding can enrich student learning With an expanded array of practical strategies tools and examples from all subject areas the book demonstrates how the research based principles of Understanding by Design apply to district frameworks as well as to individual units of curriculum Combining provocative ideas thoughtful analysis and tested approaches this new edition of Understanding by Design offers teacher designers a clear path to the creation of curriculum that ensures better learning and a more stimulating experience for students and teachers alike

Engineering and Sciences Teaching and Learning Activities Samsul Ariffin Abdul Karim, Saiful Azmi Husain, 2021-08-25 This book comes from genuine research from various universities in Asia such as in South East Asia and India Since COVID 19 pandemic is spreading all over the world most schools and institutions of higher learning have opted online based learning for their teaching and learning T L activities Previously the common practices in T L are face to face F2F Therefore online T L is a new normal not just for the students but also for the instructors as well as the parents In this book different online teaching methods via technology supported teaching have been implemented and at the end of the lesson based on the feedback from students on these online technology supported teaching tools most educators found that there are positive responses from majority of students in terms of their learning attitudes thinking and decision making process apart from the challenges faced by the students in the beginning with regards to the new approaches and methodology used by their teachers during online teaching There are eight contributed chapters in this book covering secondary school level curriculum up to higher institutional level curriculum that forming a new system of T L for post COVID 19 pandemic The topics under consideration include active learning AL and cooperative learning CL for T L task based instruction TBI transition students adaptability to post COVID 19 creative and innovative teaching methods for secondary school level mathematics project based learning PPBL for geophysics and impact of Socratic method and SOLO taxonomy This book is suitable for postgraduate students teachers instructor educational researchers as well as policy makers in education and other scientists who are dedicated in teaching and educate students

Successful Transposition of Lesson Study Eric C. K. Cheng, 2018-08-28 This book analyses the organisation cultures that promote Japanese Lesson Study identifies the soul of lesson study which is missing in other cultures and discusses the conditions for successfully transplanting the Lesson Study to other cultures Adopting Nonaka and Takeuchi's 1995 SECI knowledge creation model as the analytical lens it explores the tacit and explicit knowledge convention and creation processes in lesson study Unpacking the mechanism of the knowledge management process and practices could assist policy makers and school administrators educators in contextualising lesson study to their school systems The book provides an accessible discussion of the benefits and challenges of introducing lesson study and presents three new research dimensions to analyse it reviewing the historical development of lesson study in terms of the pendulum swings between professional accountability and state accountability in developing the school based curriculum and the national curriculum examining lesson study as a knowledge management tool for creating pedagogical knowledge for curriculum implementation and studying the kaizen kata embedded in the PDCA cycles of lesson study as an organization routine for school improvement

Topics and Trends in Current Statistics Education Research Gail Burrill, Dani Ben-Zvi, 2018-12-29 This book focuses on international research in statistics education providing a solid understanding of the challenges in learning statistics It presents the teaching and learning of statistics in various contexts including designed settings for young children students in formal schooling tertiary level students and teacher professional development The book describes research on what to teach and platforms for delivering content curriculum strategies on how to teach for deep understanding and includes several chapters on developing conceptual understanding pedagogy and technology teacher knowledge and beliefs and the challenges teachers and students face when they solve statistical problems reasoning and thinking This new research in the field offers critical insights for college instructors classroom teachers curriculum designers researchers in mathematics and statistics education as well as policy makers and newcomers to the field of statistics education Statistics has become one of the key areas of study in the modern world of information and big data The dramatic increase in demand for learning statistics in all disciplines is accompanied by tremendous growth in research in statistics education Increasingly countries are teaching more quantitative reasoning and statistics at lower and lower grade levels within mathematics science and across many content areas Research has revealed the many challenges in helping learners develop statistical literacy reasoning and thinking and new curricula and technology tools show promise in facilitating the achievement of these desired outcomes

Effectively Using Data for Educator Preparation Program Improvement Christine Carrino Gorowara, Erica M. Brownstein, Timothy Wall, 2023-05-01 This volume provides a synthesis of protocols and strategies to support assessment leaders in effectively using data for educator preparation program improvement Data informed decision making has become increasingly important in quality assurance for both internal and external audiences yet there are scant resources to guide those charged with managing the development and application of data for monitoring and improving the

quality of their programs Until this work there has been little explication of how assessment directors working in educator preparation should conceptualize organize and implement best practices in data collection analysis interpretation and sharing As state and national expectations for evidence of quality are growing it is essential to chronicle the collective wisdom of assessment leaders in education preparation in one manuscript For both novice and experienced assessment directors this volume offers insightful perspectives and excellent strategies to facilitate the journey from complying with external expectations to strategically using data and evidence to achieve goals leveraging assessment to achieve socially just outcomes involving multiple voices and interpreters and opening windows to further inquiry The editors have gathered experts in all phases of the assessment process and organized their work in an easy to follow manner This work provides both conceptual underpinnings of educator preparation quality assurance as well as practical lessons learned that will support the transformation of an assessment professional into an assessment leader ENSORSEMENTS Finally a book that shows what we can learn from accreditation collectively The strength of the volume lies in the concrete examples of evaluation and improvement that are woven throughout the chapters Effectively Using Data for Educator Preparation Improvement is a welcome addition to the small but growing body of useful literature related to quality assurance work in the field Mark LaCelle Peterson Ed D President and CEO Association for Advancing Quality in Educator Preparation The volume Effectively Using Data for Educator Preparation Program Improvement provides many examples of how providers collect data and evidence to establish or enhance quality assurance The publication will be of value to any provider seeking to enhance quality and improve their programs The publication is particularly timely given many state efforts to increase enrollments and diversity which have resulted in lowered standards Having measures and evidence of quality provide a necessary counter balance to these efforts Christopher Koch Ed D President Council for the Accreditation of Educator Preparation Effectively Using Data for Educator Preparation Program Improvement assists educators in data informed research and practice to improve programs diversify the profession and ensure that our teacher candidates are profession ready Written predominantly for the assessment director or leaders as the editors posit this volume goes beyond that goal to add a valuable resource for all of us who care about the field of educator preparation I highly recommend this book to the field as we work together to elevate the teaching profession Lynn M Gangone Ed D President CEO American Association of Colleges for Teacher Education The Kinderchat Guide to Elementary School Projects Heidi Echternacht,2023-11-06 The Kinderchat Guide to Elementary School Projects takes the structure philosophy and child centered playful approach to learning most commonly seen in early childhood and shares how to scale and apply for the wider elementary school community From one of the founders of the popular online Kinderchat group this book shows how inviting play into academic learning forms an essential back and forth between application and skill development Learn how to foster discovery playfulness imagination and spontaneity into the elementary school academic curriculum while keeping skills in the foreground Offering lesson plans

scaffolded implementation techniques and methodologies these unique and approachable projects are ready to use by in service elementary educators seasoned professionals and school leaders

Preparing Teachers for Deeper Learning Linda Darling-Hammond, Jeannie Oakes, 2021-02-08 Preparing Teachers for Deeper Learning answers an urgent call for teachers who educate children from diverse backgrounds to meet the demands of a changing world In today s knowledge economy teachers must prioritize problem solving ability adaptability critical thinking and the development of interpersonal and collaborative skills over rote memorization and the passive transmission of knowledge Authors Linda Darling Hammond and Jeannie Oakes and their colleagues examine what this means for teacher preparation and showcase the work of programs that are educating for deeper learning equity and social justice Guided by the growing knowledge base in the science of learning and development the book examines teacher preparation programs at Alverno College Bank Street College of Education High Tech High s Intern Program Montclair State University San Francisco Teacher Residency Trinity University and University of Colorado Denver These seven programs share a common understanding of how people learn that shape similar innovative practices With vivid examples of teaching for deeper learning in coursework and classrooms interviews with faculty school partners and novice teachers surveys of teacher candidates and graduates and analyses of curriculum and practices Preparing Teachers for Deeper Learning depicts transformative forms of teaching and teacher preparation that honor and expand all students abilities knowledges and experiences and reaffirm the promise of educating for a better world

Using Understanding by Design in the Culturally and Linguistically Diverse Classroom Amy J. Heineke, Jay McTighe, 2018-07-11 How can today s teachers whose classrooms are more culturally and linguistically diverse than ever before ensure that their students achieve at high levels How can they design units and lessons that support English learners in language development and content learning simultaneously Authors Amy Heineke and Jay McTighe provide the answers by adding a lens on language to the widely used Understanding by Design framework UbD framework for curriculum design which emphasizes teaching for understanding not rote memorization Readers will learn the components of the UbD framework the fundamentals of language and language development how to use diversity as a valuable resource for instruction by gathering information about students background knowledge from home community and school how to design units and lessons that integrate language development with content learning in the form of essential knowledge and skills and how to assess in ways that enable language learners to reveal their academic knowledge Student profiles real life classroom scenarios and sample units and lessons provide compelling examples of how teachers in all grade levels and content areas use the UbD framework in their culturally and linguistically diverse classrooms Combining these practical examples with findings from an extensive research base the authors deliver a useful and authoritative guide for reaching the overarching goal ensuring that all students have equitable access to high quality curriculum and instruction

Starting Small Lauren Madden, 2025-04-01 Many teachers leverage their assets to adopt changes using small but meaningful changes

that go beyond box checking and encourage authentic learning and engagement This book celebrates teachers small steps by sharing examples of these excellent small changes **Evidence, Politics, and Education Policy** Lorraine M.

McDonnell,M. Stephen Weatherford,2021-02-01 In Evidence Politics and Education Policy political scientists Lorraine M McDonnell and M Stephen Weatherford provide an original analysis of evidence use in education policymaking to help scholars and advocates shape policy more effectively The book shows how multiple types of evidence are combined as elected officials and their staffs work with researchers advocates policy entrepreneurs and intermediary organizations to develop create and implement education policies Evidence Politics and Education Policy offers an in depth understanding of the political environment in which evidence is solicited and used Two key case studies inform the book s findings The primary case a major multimethod study examines the development and early implementation of the Common Core State Standards at the national level and in four states California Indiana Massachusetts and Tennessee A comparative case analyzes the evidence used in Congressional hearings over the twenty year history of the Children s Health Insurance Program Together the two cases illustrate the conditions under which different types of evidence are used and in particular how federalism the complexity of the policy problem and the policy s maturity shape evidence use McDonnell and Weatherford focus on three leverage points for strengthening the use of research evidence in education policy integrating research findings with value based policy ideas designing policies with incentives for research use built into their rules and organizational structures and training policy analysts to promote the use of research in policymaking venues **Faith-Based Education That**

Constructs HeeKap Lee,2010-08-09 Constructivism is everywhere It is a hot issue at this time in the field of philosophy education technology and religion However can constructivism be an alternative approach in faith based education While some conclude that Jesus knew learning was an active knowledge creating process and that he always encouraged his disciples to think deeply and go beyond the surface level others would find that constructivism undercuts faith based education because of its claims to relativity For example constructivists claim that meaning is imposed on the world by us rather than existing in the world independently from us Thus they proclaim that truth is relative to particular times places and people Christians hold that truth does exist absolutely So how can there be a way forward for faith based educators who see the good in the constructivist approach In Faith Based Education that Constructs readers will find a unique approach whereby constructivism may appropriately be applied to a faith based education setting Although disagreement can occur between constructivism and faith based education this book concludes that constructivist thought and Christian faith based education are in the end congruent and harmonious in significant ways Those faith based educators who continue to hold cautionary views of radical constructivist assertions against absolute truths need not disregard all other aspects of constructivism **Evaluating Teacher Education Programs through Performance-Based Assessments** Polly,

Drew,2016-02-10 Performance based assessments have become a critical component of every teacher education program
