Byzantine migr Constantine Lascaris and above all on his ascent of Mount Etna in 1493 The more particular focus of this study is on the imaginative capacities that crucially shape Bembo s elegantly crafted account in Latin of his Etna adventure in his so called *De Aetna* published at the Aldine press in Venice in 1496 This work is cast in the form of a dialogue that takes place between the young Bembo and his father Bernardo himself a prominent Venetian statesman with strong humanist involvements after Pietro s return to Venice from Sicily in 1494 But *De Aetna* offers much more than a one dimensional account of the facts sights and findings of Pietro s climb Far more important in the present study is his eye for creative elaboration or for transforming his literal experience on the mountain into a meditation on his coming of age at a remove from the conventional career path expected of one of his station within the Venetian patriciate Three mutually informing features that are critical to the artistic originality of *De Aetna* receive detailed treatment in this study i the stimulus that Pietro drew from the complex history of Mount Etna as treated in the Greco Roman literary tradition from Pindar onwards ii the striking novelty of *De Aetna* s status as the first Latin text produced at the nascent Aldine press in the prototype of what modern typography knows as Bembo typeface and iii Pietro s ingenious deployment of Etna as a powerful multivalent symbol that simultaneously reflects the diverse characterizations of and the generational differences between father and son in the course of their dialogical exchanges within *De Aetna*

Gustave Caillebotte Michael Marrinan, 2017-01-21 Gustave Caillebotte 1848-1894, the son of a wealthy businessman, is perhaps best known as the painter who organized and funded several of the groundbreaking exhibitions of the Impressionist painters, collected their works and ensured the Impressionists' presence in the French national museums by bequeathing his own personal collection. Trained at the École des Beaux-Arts and sharing artistic sympathies with his renegade friends, Caillebotte painted a series of extraordinary pictures inspired by the look and feel of modern Paris that also grappled with his own place in the Parisian art scene. Gustave Caillebotte: Painting the Paris of Naturalism 1872-1887 is the first book to study the life and artistic development of this painter in depth and in the context of the urban life and upper-class Paris that shaped the man and his work. Michael Marrinan's ambitious study draws upon new documents and establishes compelling connections between Caillebotte's painting and literature, commerce and technology. It offers new ways of thinking about Paris and its changing development in the nineteenth century, exploring the cultural context of Parisian bachelor life and revealing layers of meaning in upscale privilege ranging from haute cuisine to sport and relaxation. Marrinan has written what is sure to be a central text for the study of nineteenth-century art and culture.

René Girard, Unlikely Apologist Grant Kaplan, 2016-08-20 Since the late 1970s theologians have been attempting to integrate mimetic theory into different fields of theology yet a distrust of mimetic theory persists in some theological camps In René Girard *Unlikely Apologist: Mimetic Theory and Fundamental Theology* Grant Kaplan brings mimetic theory into conversation with theology both to elucidate the relevance of mimetic theory for the discipline of fundamental theology and to understand the work of René Girard within a theological framework Rather than focus on Christology or atonement theory as the locus of interaction between Girard and theology Kaplan centers his discussion on the apologetic quality of mimetic theory and the impact of mimetic theory on fundamental theology the subdiscipline that grew to replace apologetics His book explores the relation between Girard and fundamental theology in several keys In one it understands mimetic theory as a heuristic device that allows theological narratives and positions to become more intelligible and by so doing makes theology more persuasive In another key Kaplan shows how mimetic theory when placed in dialogue with particular theologians can advance theological discussion in areas where mimetic theory has seldom been invoked On this level the book performs a dialogue with theology that both revisits earlier theological efforts and also demonstrates how mimetic theory brings valuable dimensions to questions of fundamental theology
