Why I Want To Transfer To a University in the United States

Studying in America has been my personal ambition. The country offers a unique environment for personal growth and development as a journalist. Experiencing life in both America and El Salvador offers a unique insight into the different social dynamics. My country is a diverse environment where there are social problems such as poverty that translate into personal obstacles regarding career growth. My personal ambition of becoming a journalist is influenced by the need to positively impact society and call attention to the various issues that affect individuals. The prospect of constructive influence on the society is evident from my work for a non-profit organization, TECHO. Consequently, the exposure to various issues such as poverty and individuals who are less fortunate has been an eye opener towards pursuing a career in journalism. As a journalist, it is my role to present information and give voice to social issues. Accordingly, as a liberal society, America offers a unique environment concerning achievement of personal ambition.

As compared to El Salvador, America offers an avenue for personal growth due to the distinctive opportunities available. Living in both El Salvador and the U.S. presented me with a unique insight into the various social and economic aspects that impact people. I realized that in the U.S. there prevails better education and internationally recognized standards regarding academic achievement. Despite the fact that I am Salvadorian, it is critical to comprehend that in the nation there are levels of poverty, political instability, and rigidity in line with personal development. Looking at America, I see it is a unique environment where the prospect of personal welfare is guaranteed. The level of education evident in the US offers a unique
