**Advancing Africa's Sustainable Development** Alain L. Fymat, 2018-11-14 While many African countries lag behind the rest of the industrialised world in scientific and medical research and development the situation is progressively improving This is why the Society for the Advancement of Science in Africa was established to contribute to economic advancement and sustainability through science research education and innovation This book provides a selection of papers from the Advancement of Science in Africa's fourth annual conference The conference was held under the overarching theme of science technology and innovation in Africa with several important sub themes including but not limited to improving health research and disease surveillance education collaborating in research responding to epidemic diseases with high mortality in Africa and promoting women's interest in science careers The collection illustrates how although the chapter contributors come from various countries and universities representing their own academic research they all share a common interest in advancing science technology and innovation in Africa

**Testing and Inclusive Schooling** Bjorn Hamre, Anne Morin, Christian Ydesen, 2018-05-11 Testing and Inclusive Schooling provides a comparative perspective on seemingly incompatible global agendas and efforts to include all children in the general school system thus reducing exclusion With an examination of the international testing culture and the politics of inclusion currently permeating national school reforms this book raises a critical and constructive discussion of these movements which appear to support one another yet simultaneously offer profound contradictions With contributions from around the world the book analyses the dilemma arising between reforms that urge schools to move towards a constantly higher academic level and those who practice a politics of inclusion leading to a greater degree of student diversity The book considers the types of problems that arise when reforms implemented at the international level are transformed into policies and practices firmly placing global educational efforts into perspective by highlighting a range of different cases at both national and local levels Testing and Inclusive Schooling sheds light on new possibilities for educational improvements in global and local contexts and is essential reading for academics researchers and postgraduate students interested in international and comparative education assessment technologies and practices inclusion educational psychology and educational policy

**Open Access Implications for Sustainable Social, Political, and Economic Development** Jain, Priti, Mnjama, Nathan, Oladokun, O., 2020-09-18 Open access publishing can be used as a strategic tool to avail access to information and achieve universal literacy Open access has gained importance over the past 15 years by making knowledge available to all without any barrier of affordability or restrictions on using this knowledge to inform and develop Open access contributes to scientific research excellence disseminates research results to a wider community and promotes multi disciplinary and collaborative research Issues of sustainable development and open access are major concerns in librarianship and information management particularly as the international library and information management community is focusing on how to contribute to the Sustainable

Higher Education Financing in East and Southern Africa Pundy Pillay,2010 This nine country study of higher education financing in Africa includes three East African states Kenya Tanzania and Uganda five countries in southern Africa Botswana Lesotho Mozambique Namibia and South Africa and an Indian Ocean island state Mauritius Higher Education Financing in East and Southern Africa explores trends in financing policies paying particular attention to the nature and extent of public sector funding of higher education the growth of private financing including both household financing and the growth of private higher education institutions and the changing mix of financing instruments that these countries are developing in response to public sector financial constraints This unique collection of African country case studies draws attention to the remaining challenges around the financing of higher education in Africa but also identifies good practices lessons and common themes

**Higher Education Financing in East and Southern Africa** Pundy Pillay,2010-07-12 This nine country study of higher education financing in Africa includes three East African states Kenya Tanzania and Uganda five countries in southern Africa Botswana Lesotho Mozambique Namibia and South Africa and an Indian Ocean island state Mauritius Higher Education Financing in East and Southern Africa explores trends in financing policies paying particular attention to the nature and extent of public sector funding of higher education the growth of private financing including both household financing and the growth of private higher education institutions and the

changing mix of financing instruments that these countries are developing in response to public sector financial constraints This unique collection of African country case studies draws attention to the remaining challenges around the financing of higher education in Africa but also identifies good practices lessons and common themes Student Identity and Political Agency Rille Raaper,2023-08-28 Examining the intersections of education sociology and politics Student Identity and Political Agency provides a unique research informed account of the student experience in a contemporary higher education setting By drawing on current societal context this book has a two fold aim to unpack and discuss student identity in higher education and to identify opportunities to influence positive educational and social change This essential text encourages readers to critically examine and explore the marketisation and massification of higher education the homogenising model of consumerism in higher education and the impact this holds upon the diversity of the student population the positioning of youth and student hood in our higher education systems past and present forms of student political agency protest unionism and consumer rights in an attempt to influence positive change Informed by recent research this is a crucial read for academics and researchers who specialise in the field of student identity and experience or more broadly in higher education transformations This book provides a timely and academically rigorous account of contemporary student identity and agency in the global context of higher education **African Womanhood and the Feminist Agenda** Musingafi, Maxwell Constantine Chando,Hungwe, Chipu,2024-01-16 Within academic circles there is a longstanding issue concerning the portrayal and understanding of African womanhood Frequently these narratives are crafted by outsiders predominantly Western scholars often distorting the lived experiences and unique perspectives of African women This has led to a skewed and sometimes negative perception of African women reinforcing stereotypes and sidelining their voices in critical discussions Moreover this misrepresentation has real world consequences as it impacts social justice initiatives and development projects that rely on misguided narratives rather than the authentic voices of African women African Womanhood and the Feminist Agenda emerges as an essential solution to the misrepresentation of African women This comprehensive and meticulously researched book offers an alternative narrative one that is rooted in African perspectives and experiences It addresses the historical cultural and political dimensions of African womanhood providing a rich and nuanced understanding of this multifaceted topic Sharing Higher Education's Promise beyond the Few in Sub-Saharan Africa Peter Darvas,Shang Gao,Yijun Shen,Bilal Bawany,2017-11-15 Despite a spectacular expansion of the higher education sector in Sub Saharan Africa the supply of tertiary education has generally failed to keep pace with demand and the region continues to lag all other regions in terms of access to tertiary education This is in part a consequence of deeply entrenched patterns of inequitable access to higher education and the perpetuation of what researchers refer to as elite systems To date access to tertiary education in Sub Saharan Africa has unduly benefitted students drawn from the region s wealthiest households and overall enrollment remains disproportionately male and metropolitan These factors stifle the catalytic

potential of higher education corroding its potential for driving economic growth and sustaining poverty reduction. Instead, patterns of access to tertiary education have generally reinforced and reproduced social inequality instead of eroding its pernicious social and economic effects. This report aims to inform an improved understanding of equity in tertiary enrollment in Sub-Saharan African countries and to examine the extent to which inequity functions as a bottleneck inhibiting the ability of African universities to effectively drive improvements in overall quality of life and economic competitiveness. In our survey of the evidence, we also aim to identify which policies most effectively address the challenge of promoting equity of access in SSA tertiary education systems. In order to achieve these objectives, the report collects, generates, and analyzes empirical evidence on patterns of equity, examines the underlying causes of inequity, and evaluates government policies for addressing inequity.

**Global Rankings and the Geopolitics of Higher Education** Ellen Hazelkorn, 2016-11-18. Global rankings and the Geopolitics of Higher Education is an examination of the impact and influence that university rankings have had on higher education policy and public opinion in recent years. Bringing together some of the most informed authorities on this very complex issue, this edited collection of specially commissioned chapters examines the changes affecting higher education and the implications for society and the economy. Split into four interrelated sections, this book covers: The development of rankings in higher education; how they have impacted upon both the production of knowledge and its geography; and their influence in shaping policymaking. Overviews of the significance of rankings for higher education systems in Europe, Asia, Africa, Russia, South America, India, and North America. An analysis of rankings in relation to key concerns that pervade contemporary higher education. Examination of the role rankings are likely to play in the future directions for higher education. This is a significant scholarly work that analyses in depth an important development in higher education systems and which is likely to have an important influence upon how we understand the higher education policy-making process, past, present, and future. It provides new analysis and conceptual understanding for researchers and firm evidence for policy makers to use when addressing the value of rankings in measuring the quality of their institutions. Besides bringing together a powerful cast of academics, this book incorporates contributions from heads of important international higher education organisations from both those involved in making and also in administering key decisions. This timely, reflective, and accessible book forms crucial reading for those studying the subject of rankings, as well as the broader implications and unintended consequences of rankings on national higher education policies. Extending beyond academic researchers and students, this book will also be of significant interest to policymakers, higher education leaders, and key stakeholders.

**Homelessness and Mental Health** João Castaldelli-Maia, Antonio Ventriglio, Dinesh Bhugra, 2022. The link between homelessness and mental health disorders is undeniable, and providing optimal care in the community requires understanding of the cultural context. Written and edited by experts from different cultural and geographical perspectives, this unique resource covers key topics such as COVID-19 and chronic pain, as well as case studies.

*Health Systems Recovery in the Context of COVID-19 and Protracted Conflict* Zsuzsanna Jakab, Sohel Saikat, Duncan Selbie, Saqif Mustafa, Yu Zhang, Geraldine McDarby, Mila Petrova, Redda Seifeldin, 2023-07-10

The COVID 19 pandemic has caused unprecedented disruption worldwide highlighting once again the interdependency of health and socioeconomic development and the global lack of health systems resilience Two years into the pandemic most countries report sustained disruptions across service delivery platforms and health areas with a profound impact on health outcomes The impact of these disruptions is magnified within marginalized communities and in countries experiencing protracted conflict There is an urgent need to focus on recovery through investment in the essential public health functions EPHFs and the foundations of health systems with a focus on primary health care and whole of government and society engagement The aim of this Research Topic is to gather transfer and promote operationalization of key experiences from COVID 19 to inform global and country level recovery that better promote health guide policy direction towards building health systems resilience and thereby ensure economic and social prosperity Experience with COVID 19 has demonstrated that traditional approaches to health system strengthening have failed to achieve the complementary goals of Universal Health Coverage UHC and health security with the divide between the most vulnerable and well off only widening Much of what had been learned from previous experiences such as Ebola in West Africa has not been widely applied This has left health and economic systems vulnerable to 21 st century public health challenges ranging from conflict and natural disasters to aging demographics and rising rates of non communicable and communicable diseases and antimicrobial resistance These challenges require intentional focus and investment as well as whole of government and society engagement with health to build health system resilience Greater action is needed to prevent the devastating effects of war and conflict on the health of the most vulnerable This Research Topic will convene the knowledge and practices of leaders in public health health systems and humanitarian and development sectors This is to ensure lessons from COVID 19 inform the recovery agenda and promote sustainable health and socioeconomic recovery for all Lest we forget and find ourselves again unprepared and vulnerable in the face of an even greater threat
