Competitive Debate Richard Edwards, 2008-06-03 The bible for debaters and their coaches Nearly every high school and college in America has a debate club and or a debate team There are hundreds of competitions at the county and state level culminating in heated national competitions Yet at many high schools and colleges coaches are drawn from the history or English departments with little or no experience in the highly structured procedures of this popular discipline And while competitive debate has been growing each year as a prime academic activity there have been no popular handbooks to help students and coaches prepare for contests effectively and efficiently Practical and authoritative this guide includes not only tips and guidelines for effective preparation and delivery but full length actual transcripts of successful competitions in each format Endorsed by the two national governing bodies for competitive debate the National Federation of State High School Associations and the National Forensic League and priced for the budget conscious student and high school teacher alike *Competitive Debate The Official Guide* is set to become the instructional bible for tens of thousands of present and future debaters and their coaches Inside Dr Richard Edwards award winning debate coach professor former competitive debate judge and author leads readers through the three popular formats of competitive debate Policy Debate Lincoln Douglas Debate Public Forum Debate

ICT-Supported Innovations in Small Countries and Developing Regions Ian A. Lubin, 2017-10-11 This timely analysis brings greater clarity to the question of how ICT supported innovations are experienced in small low to middle income countries and developing regions with implications for international education and development By bringing together a group of international technologists researchers and scholars this book explores the building of local capacity for educational technology policy and application in such regions and ably links theory to practice to illuminate how the issues at hand play out in professional practice The volume offers itself as an invaluable resource by offering a salient assessment of the existent methodological and ecological challenges and constraints in developing implementing and evaluating technology and technology research while simultaneously providing recommendations and strategy for future policy and implementation Among the topics covered The research agenda for technology education and development ICT curriculum planning and development policy and implementation lessons from small developing states New challenges for ICT in education policies in developing countries Playful partnerships for game based learning in international contexts Addressing persistent ICT in education challenges in small developing countries *ICT Supported Innovations in Small Countries and Developing Regions* is of significant interest to educational technology researchers policymakers and officials with influence over resource allocation and implementation of technology innovations It is also relevant to administrators teachers instructional designers and technology evaluators interested in advancing educational communications and technology in public and private settings

Perspective Frank Garten,2025-06-13 Why do we talk about Inclusion and DEI for decades while individual managers still struggle where to start Why do we decorate the canteen with purple flags once a year and set up women networks and ally programs while the perspectives of minorities are not heard in the management layers of organisations Why is it that we await corporate initiatives rather than make our daily conversations more inclusive Partially because our brains are inherently biased and programmed to exclude others An inclusive leader invites unwelcome perspectives while having conversations with all the diverse talent around her She sees the limitations of her own intellect and uses her curiosity to learn She does not back off from discomfort and conflict she enriches her worldview with new perspectives She admits that she is biased just like everybody else And she stays away from the extremes articulated in polarised debates as she knows we can only learn from nuanced views This practical book helps you to become more like her such that inclusion becomes part of your daily work This book is a practical guide to the inclusion of unwelcome views Such that the presence of rich and diverse perspectives strengthens our businesses Constitution and Contest Rules University Interscholastic League (Tex.),2001

Teaching of Listening Skills Abduljon Azizulloev,2011-10 Different situations require different types of listening We may listen to obtain information improve a relationship gain appreciation for something make discriminations or engage in a critical evaluation While certain skills are basic and necessary for all types of listening receiving attending and understanding each type requires some special skills Chapter 2 3 discusses those special skills and presents guidelines to improve listening behavior in all situations But before we can fully appreciate the skills and apply the guidelines we must understand the different types of listening Teaching listening skills is one of the most difficult tasks for any ESL or EFL teacher This is because successful listening skills are acquired over time and with lots of practice It is frustrating for students because there are no rules as in grammar teaching Speaking and writing also have very specific exercises that can lead to improved skills This is not to say that there are not ways of improving listening skills however they are difficult to quantify
